SPECIFICATION

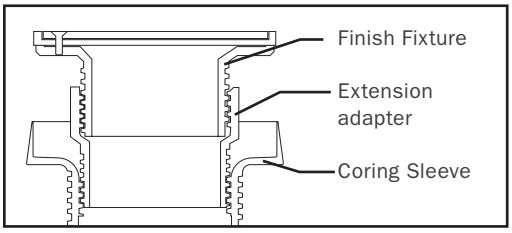
Sioux Chief 832 Series threaded extension adapter shall be used where necessary in drainage systems. Adapter shall be enamel-coated ductile iron and designed to install between the Coring Sleeve and Finish Fixture of FinishLine drains and cleanouts. Adapter shall be stacked when necessary for additional height. Adapters can be used with FinishLine items having either iron or polymer components.

MATERIALS

Enamel-coated ductile iron

832-EX3

INSTALLATION



Install adapter into female threads of Coring Sleeve. Install Finish Fixture into female threads of adapter. Adjust to proper height. Apply silicone adhesive to threads if desired.

DIMENSIONS

A:	Adjustment	2⅛" min – 3¾" max
