Southwire™ | TOOLS & EQUIPMENT

PORTABLE GFCI PROGRAM

Safety on the jobsite is paramount to maintaining a productive and injury-free environment. Southwire ShockShield® Ground Fault Circuit Interrupter (GFCI) products are designed to UL standards. Shockshield GFCI's help ensure personal safety from electrical shock while also protecting power tools and power equipment. We incorporate the highest quality components and the latest technology to provide consistent and reliable performance you can count on.

Check out our large selection of standard, convenience and user attachable GFCI's all designed to keep you and your workplace safe.

Manual Reset after GFCI Trip and Power Outage

- **Prevents Unattended Tool Restart after Power Loss**
- **Performs Safe-Start Function**
