SQUARE D™

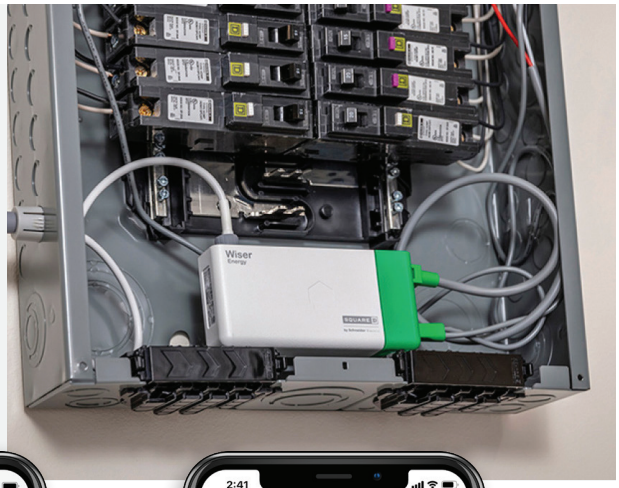
Wiser Energy™ sends you alerts on energy use, home activity, and much more.

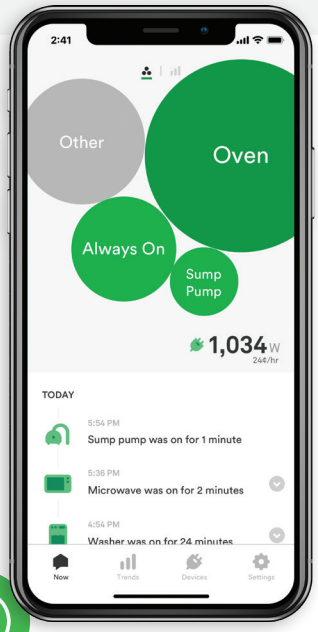
Life Is On | Schneider Electric

How does Wiser Energy transform your home?

Wiser Energy installs in your home's electrical panel, and uses machine learning to detect your home's electronics — dishwashers, waffle irons, you name it.

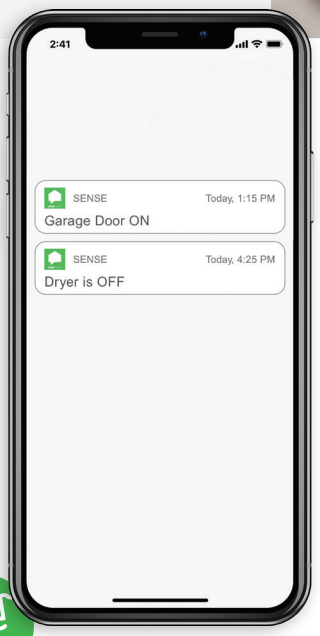
From there, Wiser Energy monitors your home's historical and real-time energy use down to the device level and, through the Square D edition of the Sense app, offers you deep insights into energy use, appliance health, and safety issues.





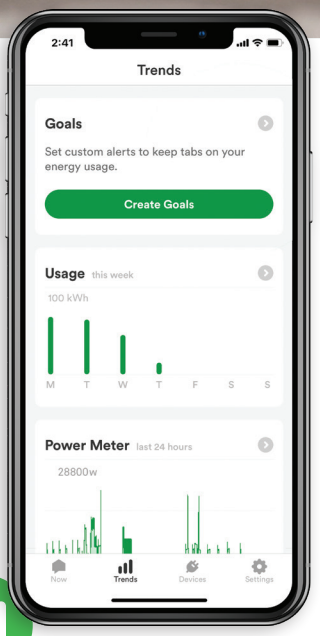
24/7 access

Make any device smart by seeing what's powered on in your home at any time, from anywhere.



Custom notifications

Create mobile alerts for when your garage door opens, your dryer turns off, your curling iron is left on, and much more.



Manage energy

Use the app's intuitive tools to set energy usage goals, estimate your monthly energy bills, and cut down on energy waste.

Discover how Wiser Energy can make your home safer, greener, and more intelligent at:
