WATER SUPPLY CONNECTORS

Fluidmaster offers a complete line of water supply connectors that are built to last. Made of a tough polymer core covered with braided stainless steel wire, these connectors exceed code requirements for durability. They also have a large inside diameter for higher flow capacity and a five year warranty.

We now offer our Click Seal® connectors which provide a guaranteed no leak seal and eliminate cross threading and stripping. Fluidmaster has the supply connectors you need for washing machines, icemakers, dishwashers, water heaters, faucets and toilets.
