nVent CADDY Reinforced Conduit Stub-Down

CONNECT AND PROTECT

The nVent CADDY Reinforced Conduit Stub Down (RSD) is a fast and secure method to install PVC and ENT to concrete formwork. Designed to guard against damage and prevent loss of raceways during a concrete pour, the RSD series eliminates the need for additional support during installation. Achieve confidence on-the-job knowing your conduit layout will remain in its desired configuration after the concrete deck is finished.

FEATURES

- Integrated reinforcing stand—resists up to 200 lbs of force
- Generous radius for ease of wire pull—50% less force required
- Threaded opening designed for standard fittings
- No fish tape hang ups

Part Number	Raceway Type	Trade Size	Height H	Length L	Width W	Thread Size TS	Figure
