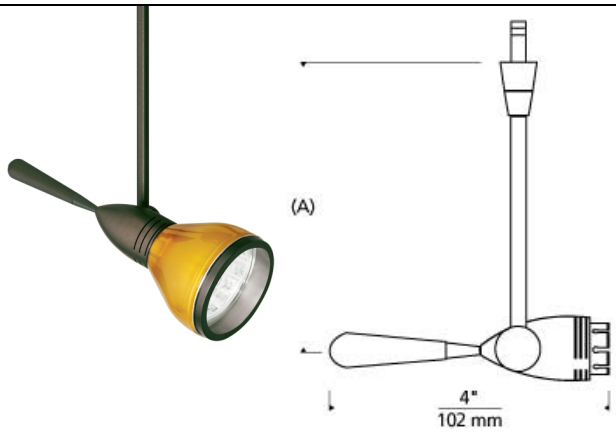
Aero Head SORAA T20



DESCRIPTION
The Aero display head by Tech Lighting is simple in design but extremely functional, featuring dozens of modern and complementary customization possibilities. The Aero provides light where you need it the most with its 360° rotating head and 260° pivot. The removable handle extension on the back serves as a functional addition assisting with pivots and rotations. The lamping is neatly concealed within the head of the lamp and can be glare free when paired with any Tech Lighting glare-reducing lens shield (sold separately). This highly customizable display head features two on-trend hardware finishes and five distinct stem lengths. Enhance your space all the more by combining the Aero display head with a Tech Lighting free-jack or rail system. This low-voltage display head is ideal for commercial lighting applications such as retail stores, libraries and galleries. Accessories in myriad styles and colors allow you to create the ideal custom element (accessory required. sold separately). Aero's head rotates 360°, pivots 260° to direct the beam. Removable glass handle. Low-voltage, MR16 lamp of up to 50 watts (not included). See accessory for maximum wattage usage. Works with SORAA.

INSTALLATION
Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system. For use on T~TRAK, order FreeJack version and T~TRAK FreeJack Connector (sold separately).
