TACOSETTER INLINE

Balancing made easy

Fast & accurate system balancing & flow control
- Easy-to-adjust
- Low pressure loss

Compact in-line design
- Baffle float with return spring

Direct flow reading in GPM

Suitable for glycol up to 50%

Regulating valve with isolating facility

Horizontal, vertical & inclined installation

Applications

Closed loop hydronic heating & cooling

Specs
- Temperature Range……32°- 212°F
- Operating Pressure……145 psi
- Material……..Brass

Part #	Connection Size	gpm	lbs.	List Price
7201-3	1”	1 – 4	0.75	$66.18
7202-3	1”	2 – 8	0.75	$66.18

1” Fitting Sets
(Sold separately)

Description	Part Number
½” Union Sweat	UFS-050S
½” Union FNPT	UFS-050T
½” Union Press	UFS-050P
¾” Union Sweat	UFS-075S
¾” Union FNPT	UFS-075T
¾” Union Press	UFS-075P
1” Union Sweat	UFS-100S
1” Union Press	UFS-100P

TACOSETTER BYPASS

Balancing made easy

Fast & accurate system balancing & flow control
- Precise flow rate measurement
- Easy-to-adjust
- Minimal pressure loss

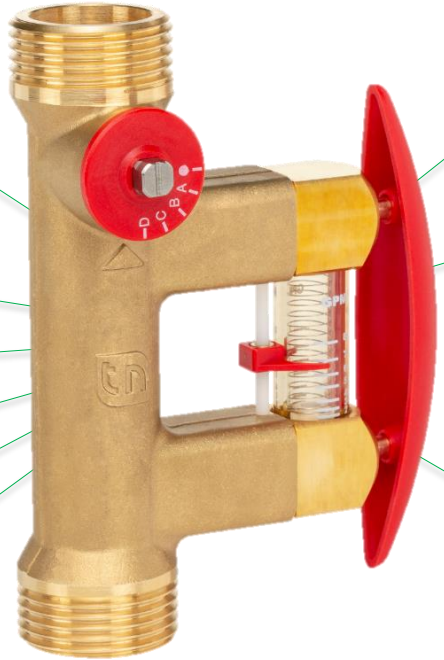
Bypass flow reading
- Baffle float with return spring
- Flow setpoint memory stop
- Maintenance-free

Suitable for glycol up to 50%

Easy installation
- Horizontal, vertical or inclined
- No shut-off valve needed

Regulating valve with isolating facility

No additional measuring devices needed



Applications

Closed loop hydronic heating & cooling

Specs
- Temperature range……..32°- 212°F
- Operating Pressure……145 psi
- Material……..Brass

Part #	Connection Size	gpm	lbs.	List Price
