

FOOD & BEVERAGE SOLUTIONS

From wet areas to extreme temperature zones and corrosive environments, facilities in the food & beverage industry present many challenging conditions.

Our solutions were created with these types of applications in mind to not only withstand these environments, but also improve efficiencies and increase safety within them.

inSIGHT™

Circuit-Lock® Disconnect Series

Six phase-indicating LEDs incorporated into the cover provide users critical information prior to removing the cover to improve both safety and convenience.

Stainless Steel

Circuit-Lock® Disconnect Series

Hubbell's stainless steel products are designed to withstand harsh environments with exposure to water, chemicals, oils and frequent washdowns typically found in food and beverage processing facilities.

Sloped Top

Circuit-Lock® Disconnect Series

15° sloped top design minimizes places for bacteria, supporting the efforts of cleaning crews to ensure a safe, clean facility.

MotorQuick®

Circuit-Lock® Disconnect Series

Combining the plug-and-play technology of LINKOSITY® with the versatility of Circuit-Lock® motor disconnect switches, MotorQuick® can reduce motor change-out time by approximately 65%.

Mechanical Interlocks

Circuit-Lock® Disconnect Series

Eliminates the possibility of making or breaking the circuit under load or making casual or "lazy" connections. Available in pin and sleeve and Twist-Lock versions.

Fused

Circuit-Lock® Disconnect Series

Provides fused switched control of a directly wired load. Non metallic and Type 4X listed. Accepts Class J fuses.

Watertight Twist-Lock®

Locking Wiring Devices

Industry's first IP69k devices provide superior water ingress protection uniquely designed for the most extreme wash down procedures.

Watertight Safety Shroud Twist-Lock®

Locking Wiring Devices

Maintain a UL Type 4X watertight seal when in use and when disconnected, as well as preventing unintentional disconnects.

Watertight IEC Pin & Sleeve

Pin & Sleeve Devices

IEC 60309-2 devices are watertight and made with a rugged super tough construction to withstand the demanding North American market.

Advantage™ Series

Pin & Sleeve Devices

IEC 60309-2 compatible devices approved as a disconnecting means for motor and branch circuits. IP69k and 4X, 12 environmental ratings

Basket Tray

Stainless Steel Wire Basket Tray

A comprehensive stainless steel wire basket tray system to handle every industrial application, such as food processing, wash down areas and highly corrosive environments.

Kellems®

Stainless Steel Deluxe Cord Grips

Deluxe cord grips provide arc of bend control to reduce tension on cables, as well as eliminating damage due to bending, twisting or vibration.

Consult product specifications for certifications.
