NEXTFRAME® Equipment Racks are available in 2- and 4-post. 2-post versions are available with depths of 3" and 6". **NEXTFRAME** racks provide an efficient method and structure for a variety of cross connect configurations. These racks are used in typical cross connect and data center applications to house patch panels, cable organizers, switches, and other network equipment. When used in conjunction with **NEXTFRAME** cable management accessories, these racks provide a solution for handling, routing, and organizing cable and optical fiber.

APPLICATIONS

- Use in data centers, equipment rooms and telecommunication rooms to provide racking, cable management, grounding and power distribution for network hardware.
