

NEW!

3M™ General Deburring Wheel

Value priced
and packed for
individual sale!

Basic Performance Made Affordable

Versatility and value, in one easy-to-use wheel

The new 3M™ General Deburring Wheel will quickly become your “go-to” abrasive for a wide range of metal finishing jobs – from deburring and edge radiusing to cleaning, light defect removal and more! Softer construction, for better conformability, more operator comfort.

3M™ General Deburring Wheel

This
is the
wheel you
will go
back to
again
and again!

3M™ General Deburring Wheels are an outstanding value – especially for shops that have a wide range of small finishing jobs throughout the day. Now you can clean, deburr, radius and more without having to stop and change wheels.

The non-woven construction of 3M General Deburring Wheels conforms to different surface configurations, giving you more control and less chance of gouging than with more rigid wheels. Plus they're packed for individual sale, so you can buy just what you need.
