MUELLER STREAMLINE CO.
150 Schilling Blvd., Suite 201
Collierville, TN 38017
P 901.751.7709

Date: May 20, 2020
Subject: Restriction of Hazardous Substances (RoHS) – Copper

The copper tubing manufactured by Mueller Streamline Co. meets the specified requirements of the RoHS3 Directive 2015/863/EU and formerly met the requirements of 2002/95/EU since its implementation. None of the products contains lead in excess of 0.1%, cadmium in excess of 0.01%, or mercury in excess of 0.1%. In addition, the tubing does not contain any of the remaining listed constituents prohibited by this specification [i.e. Hexavalent Chromium, Polybrominated Biphenyl flame retardants, and Polybrominated Diphenyl Ether flame retardants, Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP)].

This letter is in response to your request for information regarding RoHS restricted substances and the copper products manufactured by Mueller Streamline Co. The following statements are in support of your request.

We have asked our material suppliers to complete an evaluation of their materials formulations and the materials handling and processing procedures used to produce them. Based on the information provided to Mueller Streamline Co. by its material suppliers and our review, to the best of our knowledge, after due inquiry, products provided by Mueller Streamline Co. do not contain any RoHS restricted substances above the listed concentrations and would therefore be in compliance with the European RoHS Regulation.
