**Status:** Active

Star Teck Extreme hazardous location aluminum jacketed cable fitting. Hub size of 1-1/4 inch. Range over jacket from 0.950 - 1.375 inch.

With the introduction of STAR TECK EXTREME XP fitting, Thomas & Betts combined the ease of installation of the original STAR TECK XP fitting with all of the unique benefits of STAR TECK EXTREME range-taking fittings. End-users in hazardous, explosion-proof environments could now benefit from simplified fitting selection, reduced inventory and removable armour stops.

- Built-in O-Ring to ensure liquidtight installation.
- High visibility, red union features twist-on action for easy connection and disconnection. Also serves as mechanical splitter to separate hub from fitting during disassembly.
- Power Grip grounding ring is non-magnetic tin-plated phosphorous bronze or stainless steel. Dual sets of grounding devices ensure 360 degree long-term dependable grounding. Makes immediate contact with the cable during insertion.
- Built-in cable jacket stripping gauge
- Easy to fill sealing chamber - requires less sealing compound - saves time and materials. Optimally designed flame path for easy insertion into hub. Quick-turn lock uninitizes assembly during installation. Note : The red armour stop must be removed and discarded prior to potting the fitting.

## North American Specifications (UNSPSC)

UNSPSC	39121311 Electrical fittings
IGCC	4441 Electrical fittings
Brand Name	T&B Fittings
Type	Teck Cable Fittings
Application	For Hazardous Locations
Standard	UL E82038, CSA 23086
Size	1-1/4 inches
