

# BigCommerce Customer Doc Draft

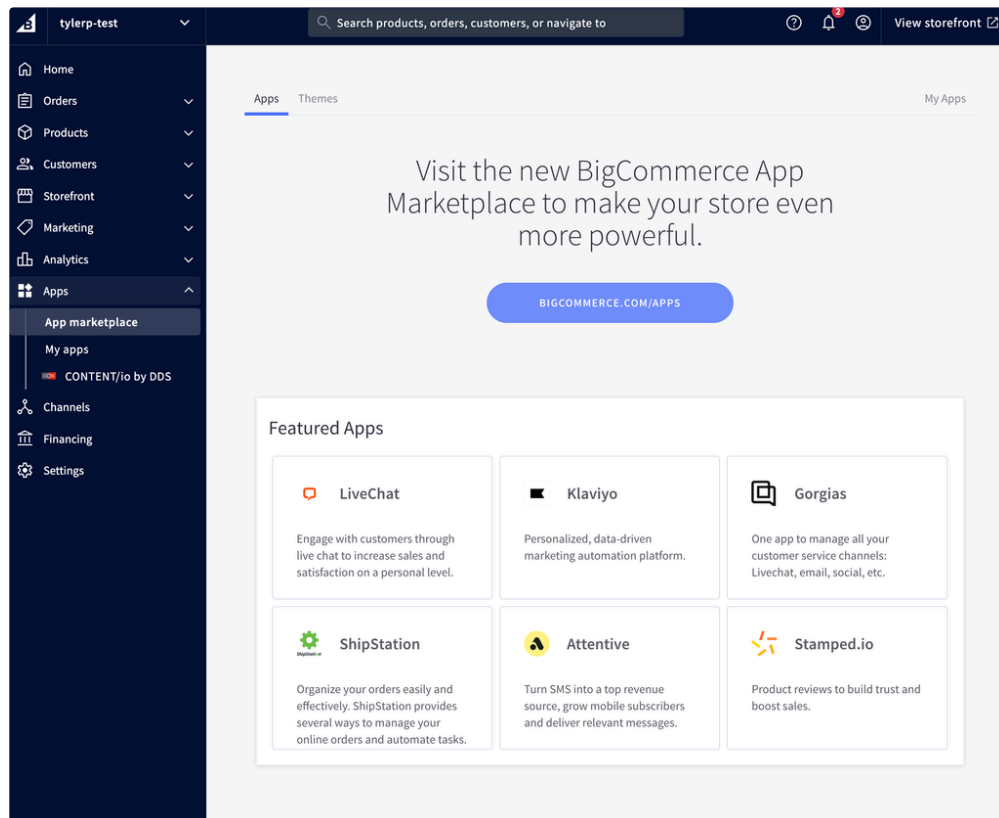

## App Description

When connected, the CONTENT/io app will sync product updates from:

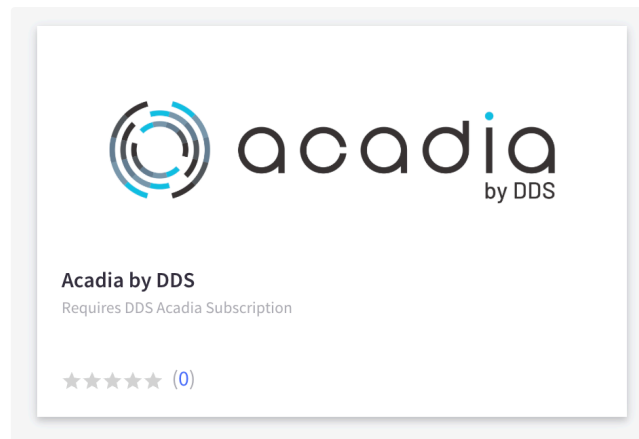

- Product edits made in Acadia, including AI Enhancements
- Product updates provided to DDS by manufacturers
- All new and existing matches, filtered by MFR if desired
- What syncs:
  - Images
  - Name
  - Specifications → Custom Fields
  - Long Description, Spec Sheet, Features, Downloads, Videos → Description using standard or custom HTML
- Introductions of new products
  - Any new products that we are not able to match to live products in your store, will be created with the **visible** flag set to `false` so pricing can be set before the product are made live.

## Installation Steps

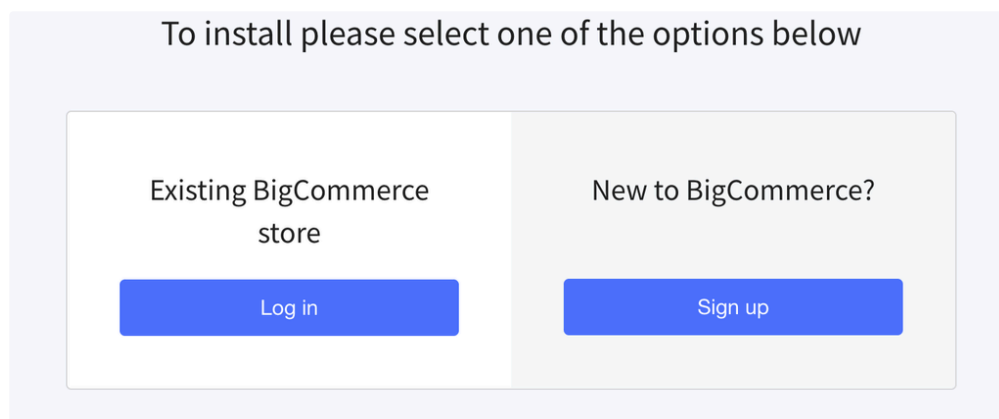

Under Apps > App Marketplace, navigate to the Big Commerce app store

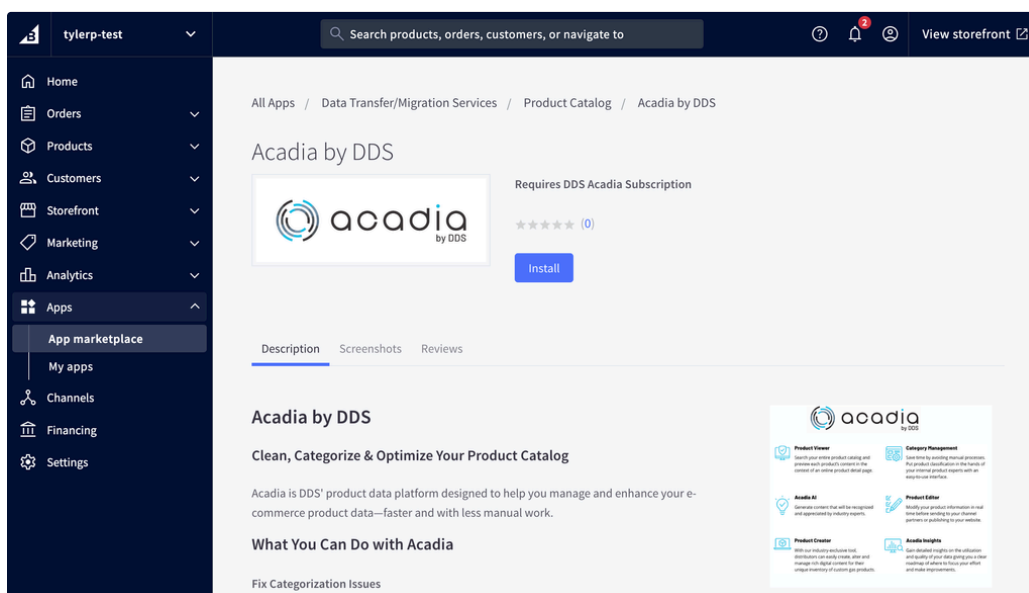

Search for 'Acadia by DDS'

Select the app from the search results, select 'GET THIS APP' and login to your Big Commerce account and storefront

Select 'Install' on the app description page under Apps > App Marketplace

Review the requested app permissions and select 'Confirm'

[< Back](#)

Acadia by DDS is requesting to update its access to your BigCommerce store.

By installing this app, Acadia by DDS will be able to:

- ✓ View and modify site content
- ✓ View basic store configuration settings
- ✓ View and modify products

Acadia by DDS will not be able to:

- ✗ Access your password

Confirm

Your use of the Acadia by DDS is governed by the [Provider's Terms of Service](#) and [Privacy Policy](#), and by providing this App access to your BigCommerce store, you are agreeing to such terms. BigCommerce does not guarantee the performance, security, functionality, or compliance of the App, and you are solely responsible for ensuring the App and its terms meet your requirements.

Select the 'LINK CONTENT/io and Acadia' button

**Authentication Successful!**

Next step to link your Acadia account to BigCommerce, please click below:

LINK ACADIA

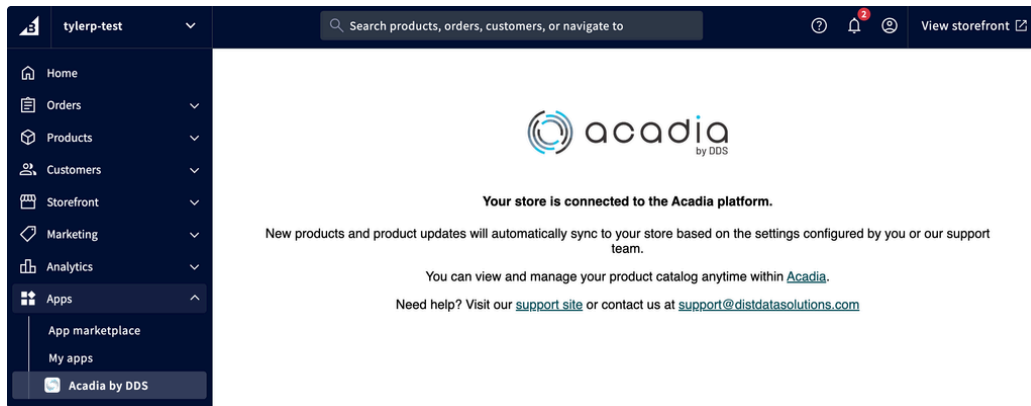

Login to your acadia account, and select 'Confirm' to connect your DDS account to your storefront

Do you want to connect your BigCommerce Store (qcrkxktlj) to Rubix Cube?

CONFIRM

After completing installation, you should see the app listed under Apps > My Apps

## Using the app

### App Options

Configuration for the app will eventually be managed within Acadia. In the meantime, you can work with our support team to tailor the behavior to your needs. Available options include:

- **Dry Run** – Preview changes before they go live on your store.
- **Selected Manufacturers** – Choose which manufacturers sync to your BigCommerce site.
- **Full Sync** – Sync all matched products to BigCommerce.
