ADDITIONAL LAMP HOLDERS

LH-21WP

LH-22WP

Allied Moulded Product's lampholder line has been expanded to include two new **GU24 2-pin base** models. These products were developed for the electrical contractor looking for basic and cost effective lampholders.

Lampholder Features

- Listed per UL® 496
- Mounting slots accept 3-1/2" or 4" outlet boxes
- Lampholder rated 75 Watts, 250 Volts
- Made of UV and heat resistant polycarbonate material
- For use in non-corrosive, residential lighting applications as permitted by local code
- All models are individually polybagged
- Will accept industry standard lamps with GU24 pin design (*see below)
- Title 24 compliant for installation of lampholders in California
