WITH THESE
COST-SAVING
BOXES

FN101FX
Single gang

FN102FX
Two gang

Captive
nails

Easy nail-on
installation

Installer must
caulk around
cable when
it's installed
to meet
NEMA OS-4
requirements

Designed for devices, Arlington's new **economical single and two-gang Vapor Boxes** nail to studs in new construction.

These cost-saving boxes don't come with gaskets, but when the installer caulks around the NM cable, they meet the requirements of NEMA OS-4. And help meet International Energy Conservation Codes (IECC) – and other codes *where required*.

For convenience, nails ship captive. Plugs and NM cable connectors are supplied (not installed).

- Non-metallic boxes fit single 1/2" or 5/8" drywall
- UL Listed
- **NEMA OS-4 certification** when caulking is applied around NM cable when installed
- 2-Hour Fire Rating

For
Obtaining
**ENERGY
STAR**
rating
