

Covers

Solid covers should be used when maximum enclosure of the cables is desired and no accumulation of heat is expected. **Ventilated covers** provide an overhead cable shield yet allow heat to escape.

We recommend that covers on vertical cable tray runs to a height of 6 ft. (1.83 m) to 8 ft. (2.44 m) above the floor to isolate both cables and personnel. **Flanged covers** have a .30 in. (7.6 mm) flange. Cover clamps are not included with the cover and must be ordered separately.

Covers Part Numbering

Prefix
Example: 80 1 P - 24 - 144

Example of Catalog Number for Fitting Cover:

Quantity of Standard Cover Clamps Required

Straight Section 60" or 72"	4 pcs.
