AC/MC Cable • Flex • EMT • Liquidtight

A PART OF

Since 1994 AFC Fittings has emerged as a leading supplier of high quality EMT, Flex and Liquidtight Fittings to the electrical distribution industry.

Today, in addition to our existing items, we are proud to announce the arrival of a robust, well rounded line of Flexible Metal Conduit Fittings, and Liquidtight Connectors and Couplings.

In today's market, quality product must be backed by excellent customer service. A fast courteous response is what you can expect no matter what your needs, from special job quotes, to product inquiries, to shipping information.

Past, Present and into the Future – AFC Fittings is your best connection!

Steel Compression Couplings	6
Raintight Compression Connectors.....	7
Raintight Compression Couplings.....	8

RIGID

Compression Rigid Connectors for Threadless Rigid Conduit & IMC Malleable Iron	9
Compression Rigid Couplings for Threadless Rigid Conduit & IMC Malleable Iron	10
Three Piece Couplings for Rigid Conduit & IMC Malleable Iron	11

AC/MC CABLE, FLEX

Armored Cable & Flexible Metal Conduit Connectors.....	12	
Parking Deck & Parking Lot	13	
Snap-Lok Flexible Metal Conduit Connectors	14	
Squeeze Connectors Malleable Iron for Flex	15	
90° Squeeze Connectors Malleable Iron for Flex	16	
Squeeze Connectors, Duplex Squeeze Connectors & 90° Duplex Squeeze Connectors	17	
Double Bite Saddle Type Connectors with Insulated Throats.....	18	
45° Double Bite Saddle Type Connectors with Insulated Throats	19	
90° Saddle Type Connectors with Insulated Throats.....	20	NEW
Double Bite Saddle Type Set Screw Couplings	21	NEW
Combo Coupling - Rigid to Flex	22	NEW

LIQUIDTIGHT

Malleable Liquidtight Fittings - Uninsulated	23 - 24	
Malleable Liquidtight Fittings - Uninsulated with Aluminum Grounding Lug	25 - 26	NEW
Malleable Liquidtight Fittings - Insulated	27 - 28	
Malleable Liquidtight Fittings - Insulated with Aluminum Grounding Lugs.....	29 - 30	NEW
Malleable Liquidtight Fittings - Insulated with Copper Grounding Lugs.....	31	NEW
Tubular Steel Liquidtight Fittings - Uninsulated & Insulated	32	NEW
Nonmetallic Liquidtight Connectors.....	33	
Combo Coupling - Flex to Rigid	34	NEW
Other Product Offerings	35	

Steel Setscrew Connectors

Features

- Pre-set & staked tri-head screws 1/2" thru 2"
- Hex head screws 2 1/2" thru 4"
- Male hub threads - NPSM
- Steel locknuts
- Heavy steel walls
- Concrete tight when taped
- UL listed for Steel EMT Conduit
- RoHS compliant

Standard Materials: Steel

Standard Finish: Zinc Plated

Applicable Third Party Standards

- UL Standard: 514B
- Fed. Spec. A-A-50553
- NEMA: FB-1
- UL Listed File # E172239
- UL & c UL us Listed for EMT, IMC & Rigid conduit, UL Listed File # E164116 sizes 2 1/2" - 4"

* Furnished with two set screws

Armored Cable & Flexible Metal Conduit Connectors

Applications

For connecting Flex, AC, MCI, MCI-A & HCF cable

Features

- No locknut required
- Single-unit or duplex construction with captive clamp
- Easy to install. Just tilt, insert & snap down
- Single unit construction eliminates loose component parts, integral green plastic insulated throat bushing provides maximum protection for wire installation
- RoHS compliant

Standard Materials: Steel

Standard Finish: Zinc Plated

Applicable Third Party Standards

- UL Standard: 514B, Armored Cable Connectors, Type AC, Armored Cable Connectors Type AC - Certified for Canada
- Fed. Spec. A-A-50552
- ANSI/NEMA FB-1
- UL Listed File # E164166

Cable Size

AFC-50 and AFC-52:

⅜" trade size steel and aluminum RW Flexible Metal Conduit 0.450" - 0.535" diameter Type MC cable interlocked armor with or without overall PVC extrusion and for MCI-A Type MC, Type AC and Flexible Metal Conduit

Fits sizes 14/2 - 10/3 steel armored cable

Fits sizes 14/2 - 12/4 aluminum armored cable

AFC-75 and AFC-5075:

½" trade size steel and aluminum RW FSC

0.570" - 0.795" diameter MC cable

Fits sizes 10/4, 10/5, 8/3, 8/4, 6/3 armored cable

* The U.L. Requirement for "concrete-tight" means "there shall be no entrance of concrete aggregate into the fitting or the outlet box, conduit, or cable," etc. A minimum of two-half-lapped layers of electrical tape, e.g., 3M's #88 or equivalent is recommended.

Parking Deck & Parking Lot

Features

- Designed for use with PVC Jacket MC cable (Parking Deck/ Lot Cable™)
- Easy installation starts by stripping back PVC jacket at the end of cable, loosen the nut, slip cable into the connector until cable is fully inserted, then tighten the connector nut
- Tapered Threads
- Zinc die cast with external knockout gasket
- Tapered external NPT threads allow conductors to be installed in threaded boxes
- UL Listed "raintight" & concrete casement ★
- New 90° connector now available

Applicable Third Party Standards

- UL Standard 514B
- Federal Specification A-A-50552
- ANSI/NEMA FB-1
- UL Listed File # E164166

★ Not suitable in direct burial (in the ground) applications

Snap-Lok Flexible Metal Conduit Connectors

8139
8149

8131
8131-US

Features

- Time-saving, snap-in design for quick & easy installation
- No locknut to use or lose
- No installation tools required
- Automated assembly is easy — perfect for fast fixture whips
- An anti-short sleeve comes with the 90° connectors at no additional charge
- Ideal for machine-fed installation
- Quality spring steel construction for maximum reliability & vibration resistance

Applicable Third Party Standards

Squeeze Connectors Malleable Iron for Flex

AFC FITTINGS • AC/MC CABLE, FLEX

Applications

For armored cable, flexible metal conduit, interlocked metal clad cables, HCF cables

Features

- Male hub threads - NPSM
- RoHS compliant

Standard Materials: Malleable Iron, Steel Locknut

Standard Finish: Zinc Plated
>2½" to 4" zinc plated & painted

Squeeze Connectors, Duplex Squeeze Connectors & 90° Duplex Squeeze Connectors

For Flex, AC, MCI and MCI-A

AFCBX38

AFC938D

Applications

For armored cable, flexible metal conduit, interlocked metal clad cables, HCF cables

Features

- Male hub threads - NPSM
- Provided with steel locknuts
- RoHS Compliant

Standard Materials: Malleable Iron, Steel Locknut

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B
- Fed. Spec. A-A-50552
- NEMA: FB-1
- UL Listed File # E164166

Double Bite Saddle Type Connectors with Insulated Throats

Tubular Steel for Flex, AC, MCI, MCI-A Cables

Applications

To connect Flex, AC, MCI, MCI-A & HCF cables to outlet

Features

- One piece tubular construction affording extra strength
- Dual gripping saddle clamps
- Saddle clamp rides up & down on screw for ease of installation
- Furnished with insulated throat
- RoHS Compliant

Standard Materials: Tubular Steel, Steel Locknut

Standard Finish: Zinc plated

- One piece tubular construction affording extra strength
- Dual gripping saddle clamps
- Saddle clamp rides up & down on screw for ease of installation
- Pre-set & staked tri-head screws
- RoHS Compliant

Standard Materials: Tubular Steel

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B
- Fed. Spec. A-A-50552
- NEMA: FB-1
- ½" thru 4"
- UL Listed File # E164116
- Patented

Combo Coupling - Rigid to Flex

Applications

To connect Flexible metal conduit to Rigid or IMC conduit

Features

- Female hub threads - NPT
- RoHS Compliant

Standard Materials: Malleable Iron

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B
- Fed. Spec. A-A-50552
- NEMA: FB-1
- UL Listed File # E164116

Malleable Liquidtight Fittings - Uninsulated

Features

- Tapered threaded male hub - NPT
- Compact, slim diameter
- Steel locknut
- Liquidtight/Raintight/Oiltight/Concrete tight
- Suitable for wet locations
- Long ferrule prevents pullout & tight bend conduit pop out
- RoHS compliant

Standard Materials: Malleable Iron, Steel Ferrule, Steel Locknut

Standard Finish: Zinc Plated

Malleable Liquidtight Fittings - Insulated with Aluminum Grounding Lugs

For use with Liquidtight Flexible Metallic Conduit

Features

- Tapered threaded male hub - NPT
- Compact, slim diameter
- Steel locknut
- Liquidtight/Raintight/Oiltight/Concrete tight
- Suitable for wet locations
- Long ferrule prevents pullout & tight bend conduit pop out
- RoHS Compliant

Standard Materials: Malleable Iron, Steel Ferrule, Steel Locknut

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B
- UL Standard: 467
- Fed. Spec. A-A-50552
- NEMA: FB-1
- Suitable for grounding in sizes 3/8" through 1 1/4" under NEC 350.60 & 250.118(6)
- UL Listed File # E82631

Malleable Liquidtight Fittings - Insulated with Aluminum Grounding Lugs (continued)

For use with Liquidtight Flexible Metallic Conduit

Features

- Tapered threaded male hub - NPT
- Compact, slim diameter
- Steel locknut
- Liquidtight/Raintight/Oiltight/Concrete tight
- Suitable for wet locations
- Long ferrule prevents pullout & tight bend conduit pop out
- RoHS Compliant

Standard Materials: Malleable Iron, Steel Ferrule, Steel Locknut

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B
- UL Standard: 467
- Fed. Spec. A-A-50552
- NEMA: FB-1
- Suitable for grounding in sizes $\frac{3}{8}$ " through $1\frac{1}{4}$ " under NEC 350.60 and 250.118(6)
- UL Listed File # E82631

Nonmetallic Liquidtight Connectors

Applications

For use with type B, non-metallic conduit

Features

- Constructed from UV rated plastic for long life
- No spin ferrule allows easy one piece assembly to conduit
- Internal gland provides positive seal when nut is tightened
- Polypropylene sealing ring assures tight seal between fitting & box
- Available in one-piece or traditional multi-piece configurations

Applicable Third Party Standards

- Multipiece: UL Listed File # E164116, CSA Certified File LR84574 & 157782
- One piece: UL Listed File # E79977, E164116
- CSA Certified File # LR-84574
- c UL us Listed for Canada

Combo Coupling - Flex to Rigid

For use with Liquidtight Flexible Metallic Conduit to Threaded Rigid/IMC, Malleable Iron

Applications

To connect Liquidtight hose to Rigid Conduit

Features

- Female hub - NPSM
- Liquidtight/Raintight/Oiltight
- Suitable for wet locations
- Suitable for grounding
- Long ferrule prevents pullout & tight bend conduit pop out
- RoHS Compliant

Standard Materials: Malleable Iron, Steel Ferrule

Standard Finish: Zinc plated

Applicable Third Party Standards

- UL Standard: 514B, 467
- Fed. Spec. A-A-50552
- NEMA: FB-1
- Suitable for grounding in sizes 3/8" through 1 1/4" under NEC 350.60
- UL Listed File # E164116
