

Mechanical Interlock Kits

Type BR Loadcenter with Mechanical Interlock Kit

With the aging electrical infrastructure and frequent severe storms, power outages are becoming more and more frequent affecting thousands of people nationwide. Eaton's Mechanical Interlock kit provides an easy and cost effective solution when using back-up emergency power.

This solution expands the robust line of emergency power products and accessories.

Features & Benefits:

- UL67 Listed – For use with Eaton loadcenters
- Prevents utility and generator supplies from being on at the same time
- Protects utility linemen from dangerous generator backfeed
- Robust interlock design
- Meets NEC[®] Article 702
- Quick and easy installation - Drill points or fixtures for pilot holes provided on all applicable loadcenters. No additional assembly required

Each Mechanical Interlock kit includes:

- Interlock assembly
- New labels
- Installation hardware
- Hold down kit is required separately on some units

Warranty information:

- 10 year warranty on all Type BR and BRP circuit breakers and loadcenters
- Limited lifetime warranty on all Type CH and CHP circuit breakers and loadcenters
- Refer to Eaton for complete warranty details
