

# LynxPOWER passive Mini-Line cordsets and receptacles

11P

LynxPOWER™ Mini-Line cordsets and receptacles are designed for modular use in abusive applications where cable assemblies are exposed to constant flexing and/or dirty, oily or harsh environments.

## Applications:

- Specifically designed for industrial automation applications in which power or signal connections are exposed to long-term physical stresses and subjected to liquids or oils
- Ideal for industrial manufacturing, production line equipment, packaging equipment, conveyors and assembly lines, plus food and beverage processing equipment
- Mini-Line connection points mean less downtime, easier maintenance and increased safety by replacing traditional hard wiring with a plug-and-run modular pre-wired system
- These products have excellent resistance to welding flash, hot chips and other severe conditions found in demanding manufacturing settings
- The molded-to-cable construction of the one-piece cordset ends creates a bond that is impervious to penetration from external contaminants

## Features:

- 1 Indicating arrow for easy identification and proper alignment of keyway
  - 2 Vibration-resistant ratchet coupler design prevents loosening in severe and high vibration applications
  - 3 Couplers pass 1,000-hour salt spray test for exceptional corrosion resistance
  - 4 Shroud and cork design rated for 1,200 psi hose down spray, exceeding IEC IP68 and NEMA 6P ratings
  - 5 Gold over nickel female contact plating provides superior conductivity and corrosion resistance
  - 6 Superior bonding receptacle to pigtail epoxy potting ensures excellent reliability by preventing pigtail pull-out
  - 7 Mini-Line cordsets available in 2-pole through 12-pole 16 AWG cable for 6A, 7A, 8A, 10A and 13A applications
  - 8 Internal contact support maintains pin location both pin-to-pin and pin-to-face dimensions
  - 9 Multiple cable options available to suit nearly every industrial application
- Style I cordset Ø=1.00"**
- Style II cordset Ø=1.12"**
- Style III cordset Ø=1.25"**
- Mini-Line receptacle**

## Male and female cordsets

### Features:

- Factory molded-to-cable cordsets provide quick connect capability
- Modular components allow for easy expansion and reconfiguration without the need for re-wiring; eliminates the need for multiple cable assemblies, reduces installation time, reduces design time and lessens the need for special tools
- Environmentally sealed ends rated at IP68 to prevent the ingress of dust, water and other contaminants to reduce maintenance and downtime
- Vibration-resistant ratchet couplers assure cordsets stay connected under load
- Superior female contact design with stainless steel sleeve for minimal degradation
- End-to-cable molded junction securely bonds for excellent reliability
- Internal contact support maintains pin location and proper keyway alignment
- Shroud and cork design exceeds IP68 and NEMA 6P rating (rated 1,200 psi hose down spray)
- Easy stripping jacketed cable design allows fast stripping with simple hand tools; high flex copper stranding delivers improved flexibility; multiple cable options

### Certifications and compliances:

- NEMA 1, 3, 4, 6P, 13
- IEC IP68
- UL Listed 2238, File No. E468986
- CSA certified, File No. LR13963

### Style I male and female plugs

- Cable options – ST00W, SO0W or SE0W (up to 5-pole)
- Straight and right angle body designs
- Vibrationproof ratchet coupler design
- Zinc, nylon and stainless steel coupler options
- Meets current SAE #H1738-2 specifications

2-pole: 13A; 3-pole: 13A; 4-pole: 10A; 5-pole: 8A; 6-pole: 6A  
2, 3, 4, 5, 6 conductor 16 AWG standard color code

### Style II male and female plugs

- Cable options – ST00W
- Straight and right angle body designs
- Vibrationproof ratchet coupler design
- Aluminum coupler
- Meets current SAE #H1738-2 specifications

6-pole: 8A; 7-pole: 7A; 8-pole: 7A  
6, 7, 8 conductor 16 AWG standard color code

### Style III male and female plugs

- Cable options – ST00W
- Straight and right angle body designs
- Vibrationproof ratchet coupler design
- Aluminum coupler
- Meets current SAE #H1738-2 specifications

9-pole: 7A; 10-pole: 7A; 12-pole: 7A  
9, 10, 12 conductor 16 AWG standard color code

## Tees and field attachables

### Features:

- Modular components allow for easy expansion and reconfiguration without the need for re-wiring; reduces installation time and lessens the need for special tools
- Factory molded tees offer quick and easy circuit branching options
- Field attachable connectors allow users to create custom cable lengths using their own cable

### Certifications and compliances:

- NEMA 1, 3, 4, 6P, 13
- IEC IP68
- UL recognized, cURus File No. E169897
- CSA certified, File No. LR13963

**MT4RC4R

- Available with molded drop cable
- Black and gray molded body options
- Zinc coupler
- IP68

3-pole: 13A; 4-pole: 10A  
3 and 4 conductor 16 AWG tees available

### Style I field attachables

- Field attachables feature an impact-resistant PVC body
- Provide IP67 environmental protection
- Nickel-plated brass coupler provides easy to use, durable connection

3-pole: 13A; 4-pole: 10A  
3 and 4 conductor available to support 16 AWG cable

## Applications:

- Specifically designed for industrial automation applications that expose signal connections to constant flexing and vibration, plus contaminants, hot chips or welding flash
- Ideal for industrial manufacturing, production line equipment, pick-n-place machines and robotic equipment and processing sensors
- Designed specifically for low amperage AC or DC control systems, compatible with pin configurations used by major sensor manufacturers in the U.S. and Europe, and meet current SAE H1738-2 and IEC 60176-2-101 specifications
- The molded-to-cable construction of the one-piece cordset ends creates a bond that is impervious to penetration from external contaminants
- Receptacle shells are made from materials chosen to mate with Micro-Mini cordsets and provide a cable assembly with far superior service

## Features:

- 1** Indicating arrow for easy identification and proper alignment of keyway

- 2** Vibration-resistant ratchet coupler design prevents loosening in severe and high vibration applications

- 3** Couplers pass 1,000-hour salt spray test for exceptional corrosion resistance

- 4** Heavy duty contact insert provides superior strength for even the most abusive applications

- 5** Gold over nickel female contact plating provides superior conductivity and corrosion resistance

- 8** Micro-Mini cordsets available in 3-pole through 6-pole 18 or 22 AWG cable for 3A, 4A and 5A applications

- 7** Multiple cable options available to suit nearly every industrial application

B	Male, straight plug, external thread, pigtail	M
C	Female, straight plug, internal thread, pigtail	F
E	Male, 90° plug, external thread, pigtail	M
F	Female, 90° plug, internal thread, pigtail	F
H	Male, 90° plug to female, straight plug	M F
K	Male, 90° plug to female, 90° plug	M F
R	Male, straight plug to female, straight plug	M F
T	Male, straight plug to female, 90° plug	M F

### 2ME

**Cable specifications**

2ME	22 AWG PVC – Euro DC color code
3ME <sup>A</sup>	18 AWG PVC – Euro DC color code

### 010M

**Length**

010M	1 meter
020M	2 meters
030M	3 meters
050M	5 meters
100M	10 meters

<sup>A</sup> This option is not part of the standard product offering and is considered to be made to order. Please contact Customer Service for ordering information and lead time.

# LynxPOWER passive Micro-Mini receptacles

AC dual key

11P

## Male and female receptacles

### Features:

- Designed for low amperage AC control systems in abusive manufacturing environments
- Available in straight designs with standard color coding in AWM/MTW Style 1430/1569 leads
- Modular components allow for easy expansion and reconfiguration without the need for re-wiring; eliminates the need for multiple cable assemblies, reduces installation time, reduces design time and lessens the need for special tools
- Environmentally sealed connectors rated at IP68 to prevent the ingress of dust, water and other contaminants to reduce maintenance and downtime; internal gasket assures watertightness
- Contact inserts securely bonded in place with a proprietary process
- Receptacle-to-pigtail potting bonds securely for excellent reliability
- Gold over nickel-plated contacts provide superior conductivity and corrosion resistance
- Internal contact support maintains pin location and proper keyway alignment
- Internal gasket assures watertight performance to IP68 and NEMA 6P ratings

**AR3E2CG003M**  
male receptacle

**AR3D2CG003M**  
female receptacle

### Certifications and compliances:

- UL recognized, cURus, File No. E169897

## AC dual key male and female receptacles

- Cable options – PVC single conductor flying leads
- 1/2"-14 NPT mounting threads
- Aluminum shell
- Meets current SAE #H1738-2 specifications

3-pole: 4A; 4-pole: 4A; 5-pole: 4A; 6-pole: 3A, 300 VAC  
3, 4, 5, 6 conductor 18 & 22 AWG U.S. AC color code

## AC dual key pin configurations and color coding:

## AC dual key and DC single key tees

### Features:

- Factory molded tees offer quick and easy circuit branching options, eliminating the need for hard wired boxes
- Tees are available with molded-to-cable drops as well as molded wiring harnesses with multiple drops
- Compact body reduces the overall connectivity footprint
- Flexible gender configurations allow the user to customize the product to fit their application

### Certifications and compliances:

- NEMA 1, 3, 4, 6P, 13
- IEC IP68
- UL recognized, cURus File No. E169897
- CSA certified, File No. LR13963

## AC dual key tapping tees

- Standard and low profile configurations
- 300V 105°C
- Epoxy coated zinc die cast hardware
- Meets current SAE #H1738-2 specifications
- Vibration-resistant ratchet design (die cast coupler)

3-pole: 5A, 300V  
3 conductor 18 AWG

## DC single key tapping tees

- 300V 105°C
- Black epoxy coated hardware
- Meets current SAE #H1738-2 specifications
- Vibration-resistant ratchet design (die cast coupler)

3-pole: 5A, 300V  
3 conductor 18 AWG

DC single key field attachables

Features:

- Field attachable connectors allow users to quickly repair damaged molded cordsets
- Allow users to create custom cordset lengths using their own cable
- Optional 316 stainless steel couplers support food and beverage applications
- Easy to use set screw terminals provide secure conductor to contact termination

DF4C1  
female DC  
field attachable

Certifications and compliances:

- NEMA 1, 3, 4, 6P, 13
- IEC IP68
- UL recognized, cURus File No. E169897

DC single key field attachable

- PG7 and PG9 thread (grommet) sizes
- Female and male in-line versions
- Straight configuration
- Terminal screw attachments
- Meets current SAE #H1738-2 specifications

4-pole: 4A, 300V; 5-pole: 3A, 300V
