Applications:

LNR conduit liners are installed in rigid metal conduit or IMC:

- To provide a smooth wire entry from conduit into enclosures to protect wires from abrasion as they are pulled
- With thin wall or thick wall enclosures
- Entering drilled and tapped openings or slip holes
- Entering an enclosure vertically or horizontally
- · Regardless of where the conduit ends in relation to the enclosure

Features:

- UL Listed and CSA certified
- No need for threaded bushings, reducers or special machining
- · Corrosion- and heat-resistant polypropylene material
- Smooth flange provides easy wire pulling and protects conductors being installed
- Space saving
- Molded ribs ensure a tight fit, preventing the liner from sliding out while conductors are being pulled
- Quick and easy to install

Certifications and compliances:

- NEC Article 346-8
- CSA standard: C22.2 No. 18
- U.S. Patent No. 5,383,688

Standard material:

Polypropylene

Standard finish:

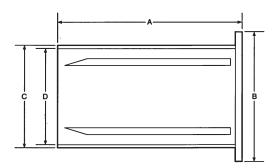

Natural (clear)
