Powerful Merchandising

In-store merchandiser holds 18 igniters and drives sales. Can be used as a stand alone floor display or use just the tray on a shelf or counter.

TrueStart® Universal and OEM Direct Replacement Igniters

About DiversiTech

Founded in 1971, DiversiTech® Corporation is North America's largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVAC/R) industry. Headquartered in the Atlanta, Ga., metropolitan area, DiversiTech's mission for its wholesaler partners is to simplify their work. The Company is focused on growth through internal product development, external partnerships and acquisition. Manufacturing a suite of products, which includes a wide range of mechanical, electrical, chemical and structural parts for HVACR systems, DiversiTech brings unparalleled scaling capabilities and supplier expertise. The Company holds numerous patents and operates an advanced R&D materials division dedicated to bringing more value to its customers. The Company maintains over 1 million square feet of manufacturing and distribution space in key U.S., Canadian and European locations. DiversiTech has enjoyed a continued history of successful growth and has acquired industry recognized brand names including Wagner® Manufacturing, Specialty Chemical, EcoPad®, The Black Pad®, Quick-Sling® and Super Seal™. More information is available at www.diversitech.com.

TRUE START®
IGNITERS
Getting it right the first time

TRUE START[®] IGNITERS

Getting it right the first time

TrueStart[®] hot surface igniters are made in the USA, 100% tested and completely reliable.

TrueStart[®] hot surface igniters universal replacement models are ideal for truck stock. OEM direct replacement models are available for time-saving installations.

TrueStart[®] Features

Made in USA

TrueStart[®] hot surface igniters are proudly manufactured in Auburn, Indiana.

100% Tested

TrueStart[®] hot surface igniters have been 100% tested and approved. TrueStart[™] hot surface igniters are completely reliable out of the box.

CSA Certified

Certified by CSA for use in electrical equipment.

Innovative Igniter Materials

Most TrueStart[®] universal igniters are made from silicon nitride. All of the direct replacement igniters and one of the universal igniters are made of the standard silicon carbide.

Additional Information:

Silicon nitride is a very durable ceramic that is high fracture and temperature resistant with long life expectancy. It can be a direct replacement for hundreds of OEM components with just one igniter. In addition to superior wear resistance, the universal hot surface igniter provides a more thermal shock and chemical resistant exterior that is adaptive with room and elevated temperatures. Silicon carbide is a naturally high temperature resistant metal that has been used in heating equipment for years. It is a good quality ceramic hot surface igniter that is adaptive with gas and liquid, can be flat or spiral, with a one to two year life expectancy. The direct replacement igniters are for specific OEM igniters.

Universal Plug Electrical Connection Kit

TrueStart[®] hot surface igniters feature a unique universal electrical plug kit. This plug kit includes the most common crimp terminals and connector housings to fit the majority of OEM furnaces. (Universal Models Only)

Universal Bracket Kit

TrueStart[®] Universal hot surface igniters feature a universal bracket kit that can be used to fit most all OEM furnaces. (Universal Models Only)

Extended Warranty

The extended warranty on silicon carbide igniters is 18 months and the warranty for silicon nitride igniters is 3 years.

Merchandisable Packaging

TrueStart[®] hot surface Igniter packaging is designed to be innovative and vibrant, presenting an original look that is different from most wholesale packaging. It contains easy to read text and a 100% scale size matching guide for direct replacement igniters.

In Branch Merchandising

Free in store merchandiser holds up to 18 igniters. The merchandiser's flexibility allows for it to be free standing or detached and placed on a counter top, the floor, or shelf. Also included is an attention grabbing graphic panel.
