Network Wiring

HUBBELL®

In today's ever-changing world of product technology and design, the list of options for multi-use complexes and campuses continues to grow. Hubbell provides the power and data solutions expected in today's multi-use facilities: From USB chargers to network solutions, these products are designed to perform and built to last through years of constant use.

Ensuring lower utility bills and reducing environmental impact of multi-use buildings, Hubbell offers a selection of sensors, timers, and dimmers to control energy usage and costs. Hubbell also offers safety and protection with GFCI and AFCI products, which guard against electrical fires and shock. Its line of nightlight switches and receptacles illuminate dark areas to keep older adults and children safe.

All of Hubbell's products are designed to provide labor savings, leading to faster installation, flexible job scheduling, and pre-fab cost savings – and all while ensuring safety, long-term reliability, and excellent performance.
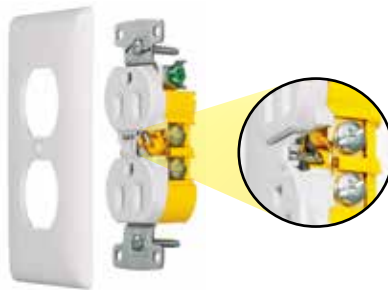

Labor Saving Solutions

Rough-in-Ready Pre-Manufactured Wiring Systems

The new pre-fab way! Work faster and smarter; 3 simple steps and you are DONE!

- Speeds installation
- Ensures consistent quality
- Compliance with code requirements
- Reduced construction schedules

"Quick Thread" Technology

Exclusive "Quick Thread" makes installation of wallplates and receptacles quicker and easier. Just push in the screw and turn. Provides branch circuit convenience power in duplex and single configurations.

SNAP*Connect*® GFCI Patented Technology

Makes installation fast, easy, and consistent. This receptacle system can save more than three minutes total installation time per device, compared to a conventionally wired duplex. The key to the system is the pre-wired SNAP*Connect* terminal.

Concealed Connections

Hubbell provides multiple solutions for in-home AV installations. With recessed boxes and receptacles, low voltage cables and power cords are organized and protected. All wires stay hidden behind wall units and entertainment centers, allowing for a clean and flushed look.
