OUTDOOR GEOMETRIC LED WALLPACK

OUTDOOR **LED** Emergency Lighting

The GeoPak Series is Dual-Lite's next generation of LED based architectural outdoor lighting offering high performance "Normally On" operation in addition to emergency lighting for all outdoor Path of Egress requirements. Twelve high powered LEDs generate more than 3115 lumens in Normal Mode, and uses 4 LEDs for 658 lumens in emergency mode. The GeoPak is a compact geometric wallpack designed for mounting heights from 8-12 feet.
