

NORTHAMPTON LED

Northampton LED lanterns take a designer-influenced approach for these updated outdoor wall lanterns. Two distinctive styles provide a modern or more traditional accent to your home with striking textured glass in a classic pattern. A Black frame highlights clear fluted glass panels with a metallic silver interior reflector, while the Architectural Bronze housing showcases clear seeded glass with a quatrefoil inspired metal pattern paired with a brass tone internal reflector.

FINISH

- Architectural Bronze - 129
- Black - 031
