Product family features

- The original electronic dimmer—first patented in 1959
- Easy-turn knob adjusts light to your favorite level
- eco-dim® model available
- 100% factory tested
- Coordinating Fassada® and Stainless Steel wallplates only available separately
- Custom engraving available for wallplates, see pg. 155

Control types

- Single-pole (one location)
- 3-way or 4-way (two or more locations)

Direct load type compatibility

- Incandescent/halogen lighting
- Ceiling fans

Lighting load interfaces are not compatible with this family.

Shown actual size: Rotary dimmer and 1-gang Fassada wallplate in White (WH).
Available finishes

Use **BOLD** color code in model number (Example: D-600P-**IV**)

---

### Dimmers and fan controls

#### Dimmer with rotate on/off knob
- Rotate on/off; rotate to adjust light level

#### Dimmers with push on/off knob and locator light
- Push on/off; rotate to adjust light level
- Includes locator light

#### Dimmers with push on/off knob
- Push on/off; rotate to adjust light level
- *eco-dim®* model guarantees at least 15% energy savings compared to a standard switch

#### Fan controls with rotate on/off knob
- Rotate on/off; rotate to adjust fan speed
- Quiet 3-speed available for use with one paddle fan
- Quiet 3-speed designed to prevent motor hum
- Fully variable available for use with multiple paddle or exhaust fans

---

*Coordinating wallplates only available separately. For wallplate information, see pg. 166.*

---

[**WH** White][**IV** Ivory]
**Connections overview**

### Load connections *

- Incandescent/Halogen Dimmer
- Ceiling Fan
- eco-dim® Dimmer
- Incandescent/Halogen Dimmer
- Fan Control

### Control types (for 2 or more locations)

*Dim from one location, switch from the others*

- Light Source
- 3-way Dimmer
- 3-way Switch
- Light Source
- 3-way Dimmer
- 4-way Switch (1 or more)
- 3-way Switch

---

**Dimmer, fan control and replacement knob model numbers**

#### Incandescent/halogen dimmers

- **Dimmers with push on/off knob**
  - Single-pole
    - 120 V  600 W
    - D-600P-CC3
  - 3-way
    - 120 V  600 W
    - D-603P-CC3

- **Dimmers with push on/off knob and locator light**
  - Single-pole
    - 120 V  600 W
    - DNG-600P-CC3
  - 3-way
    - 120 V  600 W
    - DNG-603P-CC3

- **Dimmer with rotate on/off knob**
  - Single-pole
    - 120 V  600 W
    - D-600R-CC3

- **eco-dim® dimmer with push on/off knob**
  - 3-way/single-pole
    - 120 V  600 W
    - D-603PG-CC3

eco-dim model guarantees at least 15% energy savings compared to a standard switch.

#### Fan controls

- **Fan controls with rotate on/off knob—fully variable**
  - Single-pole fan control
    - Factory set minimum speed
    - 120 V  5 A
    - FS-5F-CC3
  - Single-pole fan control
    - User adjustable minimum speed
    - 120 V  5 A
    - FS-5E-CC3

- **Fan control with rotate on/off knob—quiet 3-speed**
  - Single-pole
    - 120 V  1.5 A
    - FSQ-2F-CC3

#### Knobs

- **Standard knob**
  - RK-CC3

- **3-speed fan control knob, White**
  - 280-324-01

- **3-speed fan control knob, Ivory**
  - 280-324-06

---

**CC3**: Gloss White (WH) and Ivory (IV), see pg. 135
(Wallplates not included, order separately, see pg. 168)

*For illustration purposes only. Consult model number pages for specific voltage and capacity information.*
Accessories

Wallplates

4.67 in (119 mm)

Shown actual size: 2-gang Fassada® wallplate in White (WH).
For more information about Traditional wallplates, see pg. 166.

Coordinated electrical devices

For more information about coordinated Designer electrical devices, see pg. 163.
Shown actual size: Abella dimmers in a 2-gang Fassada wallplate in White (WH).

Product family features

- Can be used in conjunction with the following dimmer(s) and switch(es): Abella®, Ceana®, Ariadni®, Glyder® and Rotary
- All Lutron wallplates are screwless, seamless and have no visible hardware; the front plate securely snaps into the alignment adapter plate
- Traditional wallplates can be paired with designer accessories to complete the look of any room
- Customize your traditional wallplate with engraving, contact customer service to get started at 1.888.LUTRON1

Ganging and derating

- Traditional wallplates use standard ganging
- Requires fins to be removed from dimmers for proper spacing (“Fins Broken” ganging), see pg. 170
- May require derating (i.e., reduction of dimmer capacity due to fin removal), see Derating Tables, pg. 172
Available finishes

Use **BOLD** color code in model number  (Example: FG-1-**AL**)

D: .23in (5.8 mm)

Multiple devices with line and low-voltage can be mounted behind a common wallplate using a standard barrier backbox, see Application Note #213 (Combining Low-Voltage and Line Voltage Wiring Devices in a Multi-Gang Box) at www.lutron.com/applicationnotes.

Controls must have heat-sink fins broken for multi-gang installations. Removing this metal reduces the amount of heat that the control can dissipate, thus reducing the wattage capacity of the control. Please derate dimmers and switches as required.

Multi-gang dimmer installations may require derating, see pg. 170.

*Stainless Steel wallplates include black plastic trim/adapter, visible from side. Match with separate Black (BL) controls.

How to understand ganging and derating

**Standard ganging**

Ganging is the side-by-side mounting of two or more dimmers or accessory devices under a multi-gang wallplate.

Standard multi-gang installation:
- Uses standard multi-gang electrical backboxes
- Uses standard multi-gang wallplates
- Requires fins to be removed from dimmers for proper spacing ("Fins Broken" ganging)
- May require derating (i.e., reduction of dimmer capacity due to fin removal), see Derating Tables, pgs. 172–173

**Custom ganging for Architectural style controls**

For Architectural style dimmers and switches, it is possible to retain the maximum capacity of dimmers in multi-gang applications via custom architectural multi-gang:
- May require customized, wider-than-standard wallplates
- May require wider-than-standard electrical backboxes
- Allows full capacity ("No Fins Broken") ganging
- Required for Nova® dimmers and for larger width (high capacity) architectural controls
- Visit [www.lutron.com/customganging](http://www.lutron.com/customganging) for additional information

**Standard ganging for dimmers, switches and accessories**

**Standard ganging and fins broken derating examples:**

1. **One Nova T® dimmer**
   - No fins broken
   - Full capacity
   - Standard 1-gang backbox
   - Standard 1-gang architectural wallplate

2. **Two Nova T® dimmers**
   - "Fins Broken" ganging
   - One fin broken*
   - Partial derating
   - Standard 2-gang backbox
   - Standard 2-gang architectural wallplate

3. **Three Nova T® dimmers**
   - "Fins Broken" ganging
   - Inside: Two fins broken*
   - Full derating
   - Outside: One fin broken*
   - Partial derating
   - Standard 3-gang backbox
   - Standard 3-gang architectural wallplate

**Custom Architectural ganging example:**

1. **Two Nova T® dimmers**
   - "No Fins Broken" ganging
   - No fins broken
   - Full capacity
   - Backbox with chase nipple
   - Custom architectural wallplate

---

For further information on ganging and derating, visit [www.lutron.com/multigang](http://www.lutron.com/multigang).

*The fins are scored and designed to be removed easily.*
