

Selective Call Intercom System

Enables up to three simultaneous, private conversations – the only intercom in the industry to do so.

Installation based on Cat 5 wiring is easy and efficient.

IC5400-XX
Selective Call Intercom 4-Location Kit

Contemporary Studio Design blends with any décor and complements IyriQ Audio System in the Studio Design.

Broadcast or room-to-room communication at the touch of a button.

INNOVATIVE TECHNOLOGY

CUTTING EDGE SYSTEM DESIGN

The system accommodates up to 32 locations and up to three simultaneous conversations – the only intercom in the industry to do so.

UNMATCHED PERSONALIZATION

The Selective Call System allows you to choose from up to 96 room names, 20 built-in digital door tones, and four LCD skins.

ONE-PERSON INSTALLATION

Built on Cat 5 cabling, the Selective Call System includes convenient RJ45 connections and system auto-discovery.

WIRING DIAGRAM

SELECTIVE CALL INTERCOM INSTALLATION AT-A-GLANCE

1. Run a single Cat 5 cable to each location where an intercom unit will be installed.
2. Install units in double-gang boxes 56" from the floor at each location and connect Cat 5 via an RJ45 connection.
3. Run each cable back to the enclosure and connect to the intercom module.
4. Connect the power supply and wait for a few seconds as the system auto-discovers.
