

Resource RFB® Series Floor Boxes – RFB4E & RFB6E Floor Boxes

The Evolution of aesthetics

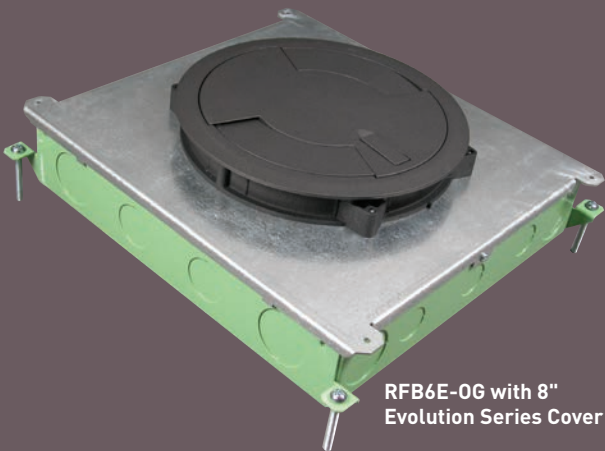

Wiremold® RFB4E and RFB6E Series Floor Boxes are the latest additions to the Resource RFB® Series of Floor Boxes. RFB4E and RFB6E are four- and six-compartment, recessed, concrete floor boxes that utilize the 6" or 8" version of Evolution™ Series Poke-Thru Covers. This offers designers and architects more options for matching aesthetics within a space, whether it is in on-grade level or above-grade applications.

RFB4E and RFB6E Series are more versatile than other floor boxes on the market today. Their new design accepts open power, communications, and audio/video. They are also the first floor boxes that can be installed in polished concrete or terrazzo floors by using a ring (RFB4E-CTR or RFB6E-CTR) for a clean, aesthetic finish.

RFB4E and RFB6E Floor Boxes include TopGuard™ protection that prevents water, dirt and debris from entering the compartment areas. Evolution™ Series Covers are UL Listed to U.S. and Canadian safety standards for tile, carpet, wood, bare concrete and terrazzo floors. They are available in durable powder coat finishes of Nickel, Brass, Black, Gray and Bronze.

Features & Benefits:

- **Accepts Evolution Series Poke-Thru Covers.** RFB4E accepts 6CTC, 6CT and 6CFFTC Series Covers. RFB6E accepts 8CTC and 8CT Series Covers.
- **RFB4E Fits within a 4 1/16" deep concrete pour. RFB6E Fits within a 4" deep concrete pour.**
- **Recessed devices.** Four to six compartments that accept power, communications, or audio/video applications.
- **3/4" to 2" trade size KOs.** (RFB4E has 2" trade size KOs.)
- **RFB6E has 1 1/4" trade size feed through openings.** Connects one adjacent compartment to the next.
- **On-Grade and above-grade applications.**
- **Installs in polished concrete and terrazzo floors.** (RFB4E-CTR or RFB6E-CTR sold separately.)
- **RFB4E accepts 2" trade size conduit hub (2HUB).** Allows 2" trade size conduit to attach to the side of box while minimizing concrete pours.
- **RFB4E accepts 6" Evolution Series Furniture Feed Covers.** Provides more flexibility and aesthetic options.
