

# AN ENERGY-EFFICIENT ALTERNATIVE TO INCANDESCENT LAMPS

Pass & Seymour® CFL Lampholders are an increasingly popular choice for electrical contractors looking to help their customers reduce energy costs in areas like attics, garages, closets and basements. And with good reason, too. The lamps themselves use 75% less energy than incandescent lamps, while delivering the same output. They also meet new code requirements for fire safety.

Available in wall switch and pull chain versions.

277FL

ENERGY STAR® qualified

**Includes 13W GU24 lamp**

**Impact-resistant thermoplastic construction**

**Meets NEC Article 410.16 requirements**

**Replaces standard incandescent ceiling lampholder**

277FL
