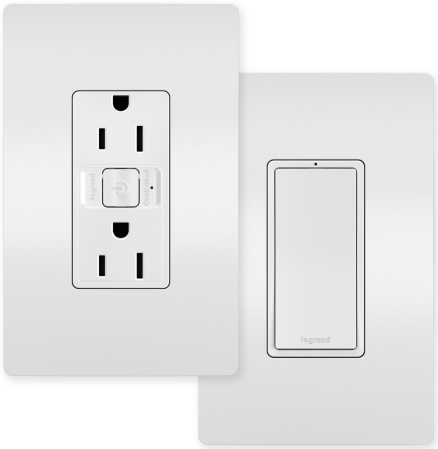
radiant Collection

radiant® Easy Switched Outlet Kit, White

Part No. WNREZK15WH



This kit uses a wireless switch to easily add on-wall control of an outlet, then simply flip the switch to control a plugged-in lamp or small appliance. To start, replace an existing outlet with the kit's radiant® 15A Outlet (wired). Then use the included battery-powered radiant® Wireless Switch to add on-wall control wherever it is desired. The Wireless Switch mounts to any wall or surface – without cutting, wiring or tools – using the provided adhesive. The devices come pre-paired, letting you add switch control in seconds. Want app control? These devices are equipped for enhanced functionality. Simply add a Smart Gateway with Netatmo and use the Legrand Home + Away app to control your lights from anywhere (and much more). For more information visit www.legrand.us/addappcontrol. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Easily adds on-wall control of lamps or small appliances.

Outlet (Wired) Installation: Replaces any standard (wired) outlet in as little as 15 minutes.

One outlet is switch controlled, the other is always on.

Screwless Wall Plates included. Coordinate with other designer switches and outlets from the radiant® Collection for a cohesive, sophisticated look.

Ready to install, no configuration needed.

Switch (Wireless) Installation: Mounts to any wall for long-lasting, battery-powered control.

Add a Smart Gateway with Netatmo to control lights via app, connect to other smart products and more.
