

Legrand's  
Complete  
Line of USB  
Solutions

FAST. FASTER.  
**FASTEST**

#LegrandImprovingLives

With more than 130 years of experience, Legrand has built safe, reliable and long-lasting electrical products that have evolved with changing technology and power needs.

Today we offer an extensive selection of industry-leading outlets and receptacles for residential, commercial and hospital-grade applications, including USB outlets to support safe and efficient charging of modern electronics.

The complete line of USB Outlets includes speeds up to 65 watts to accommodate the charging capacity required for devices of various sizes, intelligent charging technology to deliver the ideal speed and overcurrent protection to safeguard against damage to the outlet and connected device.

# FEATURED SOLUTIONS

## FASTEST

Charges a small laptop 0-50% in 45 minutes\*

**65 WATTS**  
\*per port

**6 AMPS**

**2 TYPE-C PORTS**  
with Power Delivery

**CHARGING STATUS LIGHT**  
\*industry exclusive\*

**MULTILAYERED OVERCURRENT PROTECTION**

\*Exact charging time may vary depending on charging cable and device condition and age

## FEATURED FASTEST

R26USBPD65 | TR20USBPD65

# FEATURED SOLUTIONS

## FASTER

Charges the latest smartphones 0-50% in 25 minutes\*

\*Exact charging time may vary depending on charging cable and device condition and age

## FAST

Charges smartphones & tablets

## FEATURED FASTER

# WHY CHOOSE LEGRAND USB OUTLETS?

## The Highest Quality of Safety Comes Standard

**Overcurrent protection** ensures both the outlet and connected device operate at optimal levels without risk of damage or overheating.

**Patented tamper-resistant 'invisi-shutters'** prevent improper insertion of foreign objects.

**Combination GFCI USB Outlets** ensure reliable protection from shock due to ground fault occurrences. Designed for kitchens, bathrooms and more.

**'No Juice Jacking'** - Certified to specifications outlined by the USB Implementers Forum, prohibiting the transfer and receipt of information from the connected devices to keep personal information safe.

## The Fastest Available

**Up to 65W of charging capacity** to accommodate the needs of small laptops.

**Power Delivery offers up to 2X faster charging** by enabling the highest level of power a device can safely accept.

**Built for intelligent charging**, the outlet detects and delivers the precise amount of power needed for a device based on variable voltage outputs and device profiles.

Built for Today,  
Designed to Last

As the standard for today’s modern electronics, **Type-C ports** provide users with a reliable, long-term solution for charging needs.

Instead of adapters that get lost, wear out and have short lifespans, **users can purchase our USB Type-C outlets for long-lasting charging access.**

Experience a Faster, More  
Efficient Install

**Suitable for larger jobs in commercial spaces** and hospitals, PlugTail devices feature consistent, reliable electrical connections and install 6X faster than conventional wiring devices.

Featured in the 65W USB Outlet, a **simple and easy to wire pigtail lead** cuts down on installation time in any application.

the radiant® collection

the adorne® collection

**PAIR WITH SCREWLESS WALL PLATES** in the corresponding radiant® and adorne® Collections, which feature subplate screws for proper plate placement even over ragged openings.

USB Charging Outlets & Receptacles
