### Old Work Recessed TV Frame with M118W Metal Electrical Box

The TV1WMTVSS, TV1WMLVKIT and TV3WMTVSSW Old Work Boxes are designed for remodeling jobs updating spaces to take advantage of wall-mounted TVs in an existing wall. They are single-gang and three-gang models with metallic electrical boxes, and are available in kits that include surge-protection devices, wall plates, screwless finish plates, and low-voltage connectors. They have a molded-in rectangular cut-out template to make installation easy and they fit in a standard 2x4 wall cavity. The boxes are designed to provide a snug-to-wall placement for old-work applications in hospitality, education, commercial, and residential environments. They are ideal for flat-screen TVs and reducing the clutter associated with a variety of cabling. Plugs and multimedia connections are conveniently recessed behind the wall surface.

#### FEATURES & BENEFITS

**TV Frame** Supports line voltage and/or low voltage devices.

**M118W steel electrical box** with four concentric 1/2" & 3/4" knockouts which accept Romex, MC cable or conduit, and two Romex entries with integral clamp.
