## Laser Level & Cutting Guide INSTRUCTIONS

Installation Instruction No.: 1 009 182 – July 2010

Legrand/Wiremold electrical systems conform to and should be properly grounded in compliance with requirements of the current National Electrical Code or codes administered by local authorities.

All electrical products may present a possible shock or fire hazard if improperly installed or used. Legrand/Wiremold electrical products may bear the mark of a Nationally Recognized Testing Laboratory (NRTL) and should be installed in conformance with current local and/or the National Electrical Code.

**IMPORTANT: Please read all instructions before beginning.**

### BATTERY INSTALLATION

1. Verify that laser switch is in the OFF position.
1. Separate base plate from the laser body by removing the center screw. (Figure 1)
2. Slide the battery cover off by gripping and sliding the center protrusion toward you. (Figure 2)
3. Install two (2) AAA batteries and reassemble.

Figure 1

Figure 2

### CUTTING GUIDE INSTRUCTIONS

1. Place guide with slot facing up onto a ladder step.
2. Use thumbscrew to tighten in place.
3. Insert raceway, conduit, or threaded rod into slot.
4. Insert saw blade into guide and cut the product.

### LASER LEVEL INSTRUCTIONS

Laser level will work with both Raceway fittings and Boxes. It can also be used on other magnetic surfaces or sheetrock with supplied push pins.

Figure 1

Figure 2

Figure 3

1. Rotate laser base until you feel it lock into laser level detents.
2. Use the side of the laser base to level the box base to the wall (See Figure 1).
3. Rotate laser base 180 degrees and slide laser level onto the box tongue (See Figure 2).
4. Turn on laser and rotate to establish a level line using laser level bubble.
5. Use laser level line as a guide to mark holes for raceway mounting clips.
6. Slide laser level onto the fitting tongue (See Figure 3).
7. Repeat step 5.
