

OVERVIEW

# Hi-Tech<sup>®</sup> fuse application coordination tool

Specifying the best...that's a FACT.

FACT offers quick and easy generation of time current curves (TCC) and effortless sharing of the ideal fuse solution.

### Fuse selection made easier

The Hi-Tech fuse application coordination tool, also known as Hi-Tech FACT, offers a simple, real-time solution to optimize backup current-limiting fuse selection based on the provided transformer configuration. FACT provides multiple types of expulsion fuses common in the industry, allowing users to select a specific rating as needed when defined by industry or utility specifications.

Whether it's a standard or custom application, FACT offers quick and easy generation of time current curves (TCC) and effortless sharing of the ideal fuse solution.

### Service

- Real-time turn-key data
- Easy-to-use drop-down menus
- Dedicated support email and documents readily available

### Flexibility

- Non-standard unit configuration options available
- Highest rated capability
- Quickly create multiple protection options with various expulsion fuses

### Safety

- Fuse selection optimization minimizes catastrophic equipment failure
- Protective margins between fuses ensure proper coordination
- Backup current-limiting fuse protection increases interrupting capability and improves fault isolation
