key features and benefits

Modular Keystone shielded jack modules snap in and out of all keystone all metal shielded modular patch panels for easy moves, adds, and changes

Identification Dedicated areas allow for port and panel identification. Labels are covered in a clear plastic window to protect against wear and the elements

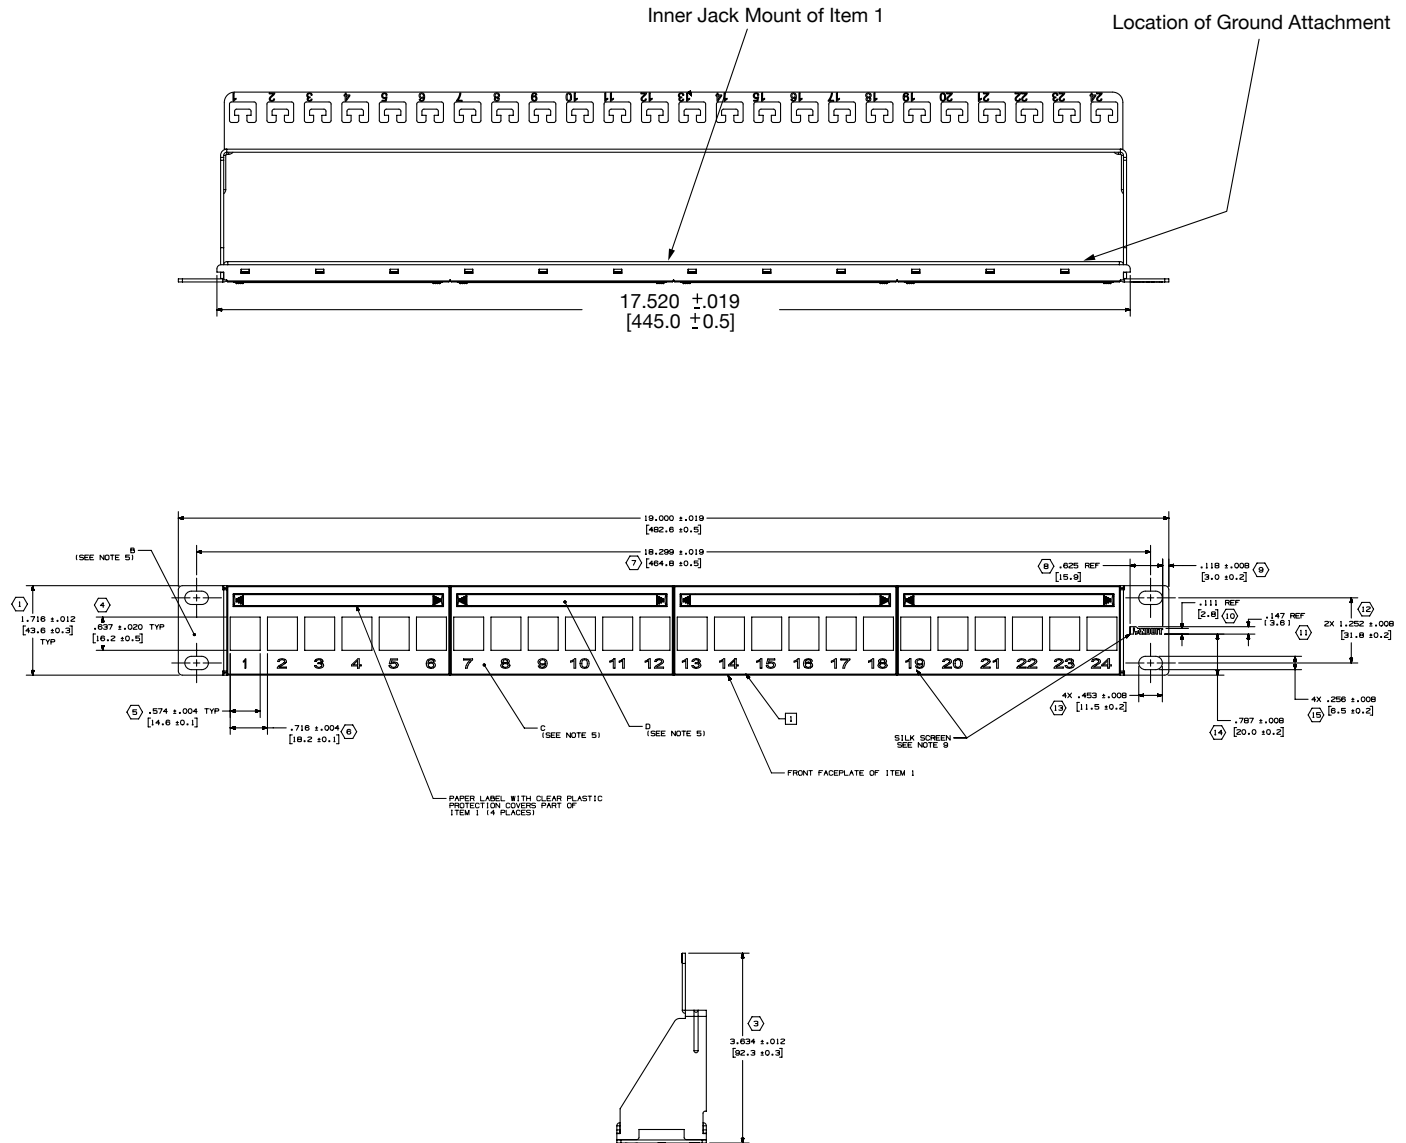

Built-in strain relief bar Secures individual cables and provides proper cable support

applications

The Keystone All Metal Shielded Modular Patch Panel includes a built-in strain relief bar that offers integrated cable tie slots to manage and support individual cables. Keystone Shielded Jack Modules bond to the panel when snapped into a Keystone All Metal

Shielded Modular Patch Panel. The Keystone Shielded Patch Panel comes with a 400mm 18 AWG ground wire. The combination of all metal patch panels, shielded jack modules and accessories provides a properly grounded system
