

IndustrialNet™ TX6™ PLUS Connectors

specifications

8-position, industrial connector shall be applicable for use in manufacturing environments and shall meet/exceed the ANSI/TIA-568-C.2 standard for Category 6 performance requirements. Bulkhead RJ45 jack and plug shall incorporate an IP67/68 rated seal and shall be designed to provide protection from dust and temporary immersion in water typically found in harsh industrial environments. Tethered protective cap shall ensure IP67/68 protection of the connector and plug in the unmated condition. Secondary seals on both the connector and plug shall provide an additional environmental barrier. Termination to a 4-pair 24 AWG 100 ohm twisted pair cable shall not require the use of a punchdown tool. An IP67/68 rating shall be achieved when mated with an IP67/68 and NEMA UL Type 12, 6/6P, 4X industrial grade, bayonet style patch cord.

Forward motion termination	Speeds installation and places no impact on critical components for maximum reliability
Industry standard RJ45 interface	Familiar to end users
No punchdown tool required	Can terminate with standard adjustable slipjaw pliers or optional termination tool (EGJT)
Universal wiring scheme	Termination cap is color coded for T568A and T568B wiring schemes
Standard mounting	Bulkhead connector fits into optional faceplate as well as standard IEC 1-13/64" (30.5mm) diameter mounting hole

applications

IndustrialNet™ TX6™ PLUS Connectors provide an ideal solution to support Industrial Ethernet from the Local Area Network (LAN) based support offices to the processing devices on the plant floor. The connectors provide IP67/68 protection for work cells requiring wash down - common in the food and beverage industry where bacterial contamination is present. The bulkhead connector also offers high

temperature resilience, namely 85°C storage and 70°C operating. In manufacturing facilities such as metal processing, welding, and chemical batch processing, high temperatures are normal. Vibration is also a concern, as in automotive panel stamping plants and work cells. The IndustrialNet™ TX6™ PLUS Connectors protect the RJ45 mating even in the most severe vibration applications.
