

ALUMINUM SPLIT BOLT INSTALLATION

CONNECTOR: See that wire size is within range stamped on split bolt head.

SPACER BAR: Used to separate conductors of dissimilar materials.

WIRE: Strip wire immediately prior to installation. Do not score strands. Clean wire strands with a wire brush or abrasive cloth.

NUT: Tighten nut to torque shown on torque chart or package label.

INSTALLATION: Connector surface must be in full contact with stripped wire strands and must not ride up on insulation.
