- 10. Terms & Conditions

The StruxureWare™ Operation Rack PDU Assessment will review all of the rack PDU's in the customer's data center and populate them in the floor mount graphical representation. This will allow the customer to quickly see the visual representation in the populated rack in StruxureWare Operation. This is an optional service that must be purchased with the mandatory StruxureWare Management Software Configuration Suite and associated mandatory services.

Contact a Schneider Electric sales representative for more information on services designed to manage the data center from installation and configuration, to training and software maintenance, as well as customizable services that meet unique software integration or enhancement needs.

2.0 Features & Benefits

Features	Benefits
Rack PDU Assessment	Schneider Electric will take care of adding rack PDU's to all Rack's in the customer's floor mount graphical representation.
Professional expertise	Ensures quality by using only Schneider Electric Certified Engineers with several years of industry experience.

3.0 Details of Service

The specific activities of this service are listed below. For each item, Schneider Electric will perform the work described.

StruxureWare Operation Rack PDU Assessment	
Activities	Description
Rack PDU Assessment	Schneider Electric will add rack PDU's to all racks in the customer's floor mount graphical representation.
	Schneider Electric will ensure that each rack in the customers data center floor layout view contains the correct type and amount of rack PDU's.
	Schneider Electric will validate rack PDU's are represented correctly in the model by indicating their left, right or front mount orientation.

4.0 Assumptions

The successful performance of the activities defined is based on the following key assumptions:

- Schneider Electric will perform all services during the Schneider Electric business hours (Monday through Friday from 8:00 AM to 5:00 PM weekly, local time).
- The scheduled on-site work time will be discussed and approved between Schneider Electric and the customer.
- The customer will ensure that all Schneider Electric, NetBotz, and third-party devices are installed and can be connected to the Schneider Electric private LAN network.
- The customer will ensure all cable runs between rooms and/or floors are run prior to arrival.
- The Customer will ensure that all required work has been completed prior to this service being performed.

Additional services are offered as a natural expansion to this Statement of Work:

- StruxureWare Operation Floor Catalog Creation
- StruxureWare Operation Rack Mount Catalog Creation
- StruxureWare Operation Floor Layout Creation
- StruxureWare Operation Floor Mount Equipment Identification
- StruxureWare Operation Power Dependency Configuration
- StruxureWare Operation IT Device Assignment
- StruxureWare Operation Installation
- StruxureWare Operation Labeling service

5.0 Deliverables

Configuration deliverables to include:

- Schneider Electric will arrange a pre-assessment phone meeting.
- Schneider Electric will meet with the customer on the morning of the service to review the deliverables.
- Schneider Electric will register and activate all purchased license keys.
- Schneider Electric will install the desktop client on two laptops or workstations.

6.0 Exclusions

The following items are outside the scope of this service offering. They can be provided through an alternative Schneider Electric service. Please contact a Schneider Electric sales representative for further details.

- Project management
- Firmware upgrades
- Configuration of the customers network for the use of the application
- Training

7.0 Scope of Responsibility

The items stated here are responsibilities of both Schneider Electric and the customer.

7.1 SCHNEIDER ELECTRIC RESPONSIBILITIES

- Schedule qualified engineer to perform service.
- Manage and coordinate scheduling of StruxureWare® Central Basic Administration Service.
- Ensure installation is performed to manufacturer specifications.
- Identify and document open Schneider Electric and/or customer issues.

7.2 CUSTOMER RESPONSIBILITIES

- Identify dates and times when the StruxureWare Operation Manager Rack PDU Assessment Service can be conducted.
- Schedule the attendance of minimum one person for the duration of the service that will interact with the StruxureWare Operation on a regular basis.
- Indicate to Schneider Electric any security clearance requirements when ordering service.
- Provide a point of contact during time of service.
- Provide access to the data center
- Provide Schneider Electric with site-specific policies that need to be adhered to during the visit.
- Provide Schneider Electric with the necessary information about the power setup in the data center.
- Provide a point of contact at the completion of service

8.0 Project Work Details

The following details of the project specify the schedule, location and successful completion criteria.

8.1 SCHEDULE

Actual set dates will be discussed and approved between Schneider Electric and the customer.

8.2 LOCATION

The configuration service will be performed on-site at the location indicated to Schneider Electric by the customer by the time of ordering the service.

8.3 COMPLETION CRITERIA

Schneider Electric is expected to have finished its written duties when any of the following occurs:

1. Schneider Electric completes all the tasks described in the Details of Service of this Statement of Work.
2. This service and Statement of Work are terminated for other reasons, within the Schneider Electric Customer Agreement.

9.0 Pricing

The StruxureWare Operation Rack PDU Assessment service (WNSC010205) is a component of the standard fixed-fee StruxureWare Management Software Configuration Suite. Pricing for the service components contained within a solution will be aggregated under StruxureWare Management Software Configuration Suite (WNSC01). Please contact your Schneider Electric sales representative for further details.
