Remarks :

| Electrical data   |                          |
|---|--------------------------|
| Design of the sensor  | Motor encoder DRIVE-CLiQ |
| Test voltage, rms Signal conductors                             | 500 V                    |
| Rated voltage U0/U in accordance with EN 50395 Power conductors | 30 V                     |

| Mechanical data                                 |                     |
|---|---------------------|
| Type of connection cable engine side            | RJ45 DRIVE-CLiQ     |
| Type of connection cable converter side         | DRIVE-CLIQ RJ45     |
| Maximum cable outer diameter                    | 7.1 mm              |
| Smallest bending radius (fixed installation)    | 35 mm               |
| Smallest bending radius (flexible installation) | 75 mm               |
| Number of bends, max.                           | 10,000,000          |
| Maximum traversing velocity                     | 300 m/min           |
| Acceleration horizontal, max                    | 50 m/s <sup>2</sup> |
| Tensile stress, max. Fixed installation         | 50 N/mm²            |
| Tensile stress, max. Flexible installation      | 20 N/mm²            |
| Torsional stress                                | Absolute 30°/m      |
| Length  | 16.0 m              |
