

Siemens Low Voltage Residential Circuit Breakers Main Breakers - Branch Main Breakers Non-reversible are Circuit Protection Load Center Mains, Feeders, and Miniature Circuit Breakers. Type: MD-T Voltage Rating: 120/240 Amperage Rating: 200 Interrupt Rating: 10 Number Of Poles: 2

|  |                         |
|--|-------------------------|
| number of poles                                    | 4                       |
| suitability for operation                          | Electrical Distribution |
| <b>Electricity</b>                                 |                         |
| continuous current rated value                     | 25 A                    |
| voltage between phase and Ground (GND) rated value | 120 V                   |
| voltage between phase and phase rated value        | 240 V                   |
| <b>Model</b>                                       |                         |
| product brand name                                 | MURRAY                  |
| special product feature                            | Marine 50C              |
| type of electrical connection                      | PLUG-IN                 |
| <b>Mechanical Design</b>                           |                         |
| depth [in]   | 6 in                    |
| design of the overload release                     | Thermal Magnetic        |
| design of the product                              | MPP-MT                  |
| height [in]  | 3 in                    |
| width [in]   | 4 in                    |
| <b>General product approval</b>                    |                         |
| standard   | UL 489                  |
