Multimedia Snap In Connectors

A growing trend is the convergence of audio, video and data at the work area. Hubbell's expanded line of high quality Audio and Video connectors provide multimedia configurations to the desktop as well as the telecommunications closet. Our extensive offerings of S-Video, SVGA, RCA, BNC and F connectors are provided in solder and feed-through couplers to UTP 110 punch-down versions, delivering flexibility and ease-of-use to

custom create numerous configurations. Converting to Hubbell's multimedia connectors will greatly improve the signal quality when transmitting video and audio to the work area. In addition to these Keystone snap-in multimedia connectors, Hubbell also offers modular multimedia products for our communication wall plate system (see page P-7).
