EV Series

ARCHITECTURAL LED EMERGENCY LIGHT

FEATURES

- Standard EV model has 20' spacing, optional -02L model increases spacing to 33' on a 6' path
- High impact, flame rated and UV stable white thermoplastic housing
- The EV series includes the EVR-2 LED remote as an accessory
- Fully adjustable high output LED lamp-heads
- Environmentally Friendly Nickel Metal Hydride Battery
- Top mount conduit entry
- Remote capacity models have a minimum run-time of 120 minutes when no remotes are installed

SPECIFICATIONS

APPLICATION

- The EV Series is a compact architectural emergency lighting unit designed for fast wall mount installation and reliable service
- The EV Series has a flame-rated, UV stable thermoplastic housing and a lightly textured white finish
- Integral LED based lamp-heads are fully adjustable
- Unit provides a full 90 minutes of emergency lighting
- Includes micro-controlled pulse charger and nickel metal hydride (NiMH) battery
- The EV accepts 120/277VAC input at 60 Hz and optional 220-240VAC input at 50-60 Hz with self-diagnostics option

CONSTRUCTION

- The EV Series housing and back-plate are made from durable injection molded thermoplastic
- Lamp-head front halves are made of die-cast aluminum for thermal dissipation
- Back half of lamp-head made of ABS thermoplastic
- LED lens are made of acrylic.

INSTALLATION

- Universal mounting template molded in the back plate aids in quick installation
- Unit mounts to all single gang and standard 3 1/2" and 4" square or octagonal electrical boxes. Conduit entry through a molded-in knock-out at the top center
- Pre-stripped AC input leads provided
- Unit may be ceiling or wall mounted

ILLUMINATION

- The EV Series provides bright and uniform illumination and increased spacing by using 2 high power LEDs which are mounted in a specially designed heat dissipation lamp-head
- Each lamp-head is fully adjustable and positioning is maintained by a friction fit design
- Photometrics are available for download at www.dual-lite.com

COMPLIANCES

- Listed to UL924 Standard, NFPA 101, NFPA 70
- Damp Location Listed Optional
- RoHS
- CEC T20 Compliant

WARRANTY

- LED Lifetime Warranty
- EV Full 3 year warranty
- EV with Spectron® Full 5 year warranty
- See [HLI Standard Warranty](#) for additional information

KEY DATA	
Lamp Color	Cool White
Total Lamp Output	1W, 88 Lumens per LED 2W (optional), 145 Lumens per LED
System Efficacy (LPW)	80
Rated LED Lifecycle (Hours)	> 100,000

Accessories

- EVR2** 2 LED Indoor Remote
- EVR2B** 2 LED Indoor Remote Black Finish
- EVO** Outdoor Remote
- WGLX** Wire Guard - 8"H x 12"L x 4"D
- WGLXC** Wire Guard 6¼ x 14"L x 4"D
- VRS3** Vandal Resistant Shield - 11½"H x 15½"L x 4½"D

Notes:

- 1 Capacity to run 2 head remote
- 2 EV2 available with or without damp listing, all other models include damp
- 3 -24K option only available with damp plus Spectron®
- 4 Not capable of running remote heads
- 5 Can only be run from EV4 model
- 6 -0 No-head option only available with EV4D-02L, with or without Spectron®

Note: Remote Capacity models have a minimum run-time of 120 minutes when no remotes are installed
NOTE: Remote Capacity Option will only power the EVR2 and EVO remotes

EVO Outdoor Remote

EVR2 Indoor Remote

ELECTRONICS

Upon failure of normal utility power, a solid-state transfer switch automatically activates the emergency LED lamp-heads. Upon resumption of normal utility power, the battery is disconnected from the load and recharged through a microprocessor controlled pulse charger. The battery is a maintenance-free Nickel Metal Hydride(NiMH) type. The EV series accepts dual-voltage input of 120 or 277VAC at 60 Hz, or an optional 220-240VAC input at 50-60 Hz. A low voltage battery disconnect (LVD) feature protects the battery from severe damage during prolonged power failures. Manual testing is available at any time using the push-to-test button.

Number of Lamps- 2 High Power LEDs at 1 watt each configured so that if 1 lamp malfunctions, the remaining lamp will continue to provide illumination to the -0(no-head) option will power 1 double-head remote (EVR2 or EVODW) at 2 watts per lamp (145 lumens). This option allows the battery to be located in a conditioned environment.

STANDARD FEATURES INCLUDE

- Intelligent 2-wire input connection
- External push-to-test switch and AC-on indicator
- Battery re-charge within 24 hours
- AC Lock-out circuit
- Low voltage disconnect
- Conduit entry knock-out located at the top center
- Microprocessor controlled pulse charger

OPTIONAL SPECTRON FEATURE

- Self-diagnostics monitors LED status, LED load transfer circuit, battery capacity and charger function and displays any fault detection by means of a flashing code
- Self-Test feature automatically runs a 1 minute test once a month and an alternating 30 or 60 minute test once every 6 months. Multi-color LED indicator provides visible fault detection and charging status.
- User initiated 1 or 90-minute system test feature
- 15 minute re-transfer delay
- Automatic unit transfer in brown-out conditions (below 80% of nominal AC input voltage)

OPERATING TEMPERATURE RANGE

Standard: 68° to 86°F (20° to 30°C)

Damp Listed: 50° to 104°F (10° to 40°C)

WEIGHT

2.0 lbs
