

# 4" Octagon Concrete Rings & Covers

## Features

- Available with 1/2" and 3/4" KO
- Available in multiple depths
- Mounting tabs allow for quick and easy installation
- Sealed KO's prevent wet concrete and water from entering the box

## Applications

- Octagon concrete boxes with 1/2" & 3/4" side knockouts are used in poured concrete construction
- They are installed on wooden or steel concrete forms, once the forms are removed the boxes and conduit are buried in concrete and the end is open to the room wall or ceiling, ready for wire pulling
- Includes extra-long external mounting tabs allow an easy installation by nailing or screwing the boxes to wooden, or steel concrete forms
- Knockouts are sealed against box surface to prevent wet concrete and water from entering the box
- Top covers are removable allowing any before-pour work

## Standard Material

- Galvanized steel
