PRODUCT DATA SHEET

AC PAN TREATMENT
A/C Drain Pan & Drain Line Treatment

Description

AC Pan Treatment tablets keep drain pans and drain lines clean and free of debris. Control odor, sludge, plugging and slime.

Directions

Start treatment by placing 2 tablets per one ton of air conditioning into A/C drain pan. Add 2 additional tablets per one ton of air conditioning every three months or whenever odor occurs. AC Pan Treatment may be more effective if the pan or reservoir is drained and cleaned before treatment.

Applications

AC Pan Treatment is designed for air conditioners, humidifiers and refrigerators, in which odors control and water overflow from the drain pan is a concern. It can also be used in the commercial air conditioning units that are commonly found in motels, hotels, hospitals, nursing homes, schools, apartment and office buildings. AC Pan Treatment tablets are packaged in a plastic bottle for easy use.

When used according to directions, it will keep your drain pans and drain lines clean. It will control the odor and sludge in the air conditioning system.
