

ECONOMY LED UPGRADE GRILLE

Fast and Easy Installation

- Installation can be completed in 5 minutes or less thanks to a quick connect pass-thru plug.
- Simply plug the new grille into the fan receptacle and the motor into the grille's pass-thru plug.
- No extra wiring is required and the grille is sized just right to conveniently cover existing dry wall cuts for an easy, no cut install.

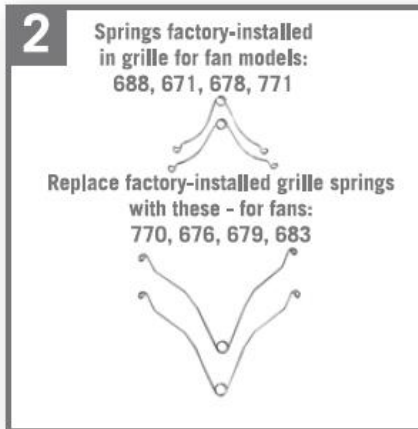

Remove old grille & unplug motor.

Attach new grille to fan with one grille spring (nearest to fan receptacle). Plug motor into pass-thru plug. Plug pass-thru plug into fan receptacle.

Choose grille springs for your fan model.

Attach second grille spring to fan and push grille up against ceiling.
