- 6" dia. flexible ducting included

Can be used to ventilate excess heat and humidity from single family, residential garages.

SPECIFICATIONS

VOLTS	AMPS	RPM	SONES	CFM
120/127	.40	2660	6.0	70

HVI-2100 CERTIFIED RATINGS comply with new testing technologies and procedures prescribed by the Home Ventilating Institute, for off-the-shelf products, as they are available to consumers. Product performance is rated at .03 in. static pressure, based on tests conducted in a state-of-the-art test laboratory. Sones are a measure of humanly-perceived loudness, based on laboratory measurements.

TYPICAL SPECIFICATION

Ventilator shall be Broan Model 512M.

Unit shall be installed in an exterior wall - NOT through a fire-rated wall. Unit shall be controlled with a wall switch (speed control).

Ventilator shall be galvanized steel housing finished.

Motor assembly shall be removable and permanently lubricated. RPM not to exceed 2600.

Air delivery shall be no less than 70 CFM and sound level no greater than 6.0 Sones. All air and sound ratings shall be certified by HVI. Unit shall be U.L. listed.
